Journey Through The Glass

Our last two years have been a milestone in which new terms about production and consumption were put in circulation, new codes were written, new ideas spread. Our awareness as individuals and as a society has increased on a more comprehensive broad scale. Health and well-being have become humanity's agenda on a mass scale and in a different perspective than ever before. This period also led us all to do things we already wanted to do but long postponed. And it showed signs that collectively we can create a better world.

Today, we look at every stage from product development to design more sensitively through the viewpoint of social and environmental responsibilities. As LAV, we go beyond being simply a manufacturer and work to create a vision for our shared future. The new definitions of the sense of belonging for the post-pandemic era are sources of motivation for us: Eating healthier, consuming less, reusing, recycling, transforming further, sustainability that is no longer an "extra"...

While the changing consumer priorities and values are relocating the kitchen as the main focal point of living spaces, we also keep on transforming with our innovative and sincere attitude parallel to life. As LAV, we are taking firm steps towards becoming a world brand. As the world's 5th largest producer of glassware, as of 2020, we produce 2 million pieces of glass daily in our two production facilities. With 350 business partners on a global scale, we deliver our products to people in every corner of the world at 200,000 sales points and become a part of their tables.

In the last ten years, our export numbers have increased by 450%. Despite the rising costs in raw materials, logistics, and particularly energy, resulting from economic instability and price irregularities, we carry on producing and exporting at a higher standard. Our sustainable way of executing business and investments play an essential role in these achievements. The most important one of those investments was getting into the North American market. The new showroom we opened this year on Madison Avenue in New York, where the leading brands of the global industry are also present, marked the beginning of an exciting new journey for LAV.

As one of the aftershocks of the pandemic, the products carry deeper meanings for consumers, who will focus on stillness versus chaos, quality versus quantity, and a slower life, so brands need to develop a trustworthy sustainable purpose. At this point, we want to retell the story of glass to America and change the kitchen routine in the new continent with the energy of LAV.

The pandemic had paved the way for a process in which the impact of consumption on the environment and inner self is seriously questioned; In this way, we remembered some fundamental values. We re-looked at the things we deem necessary and unnecessary in our daily life. As a company that manufactures products constantly in contact with food, we have carried out many innovative studies to prevent food waste. We have expanded our portfolio of storage containers to store the food for an extended time and in a healthy way. We will continue to ponder and develop projects on food preservation.

Our first published LAV 2020 Sustainability Report covers our priorities, performance, and goals in line with our strategy "Journey through the Glass" for 2020-2025. In this roadmap, we focus our sustainability activities on the axis of 'A Better Company,' 'Better Products,' and 'A Better World.' We have determined our priority concerns and objectives corresponding to these three pillars and the UN Sustainable Development Goals to which of those we contribute.

We add value to life with our products manufactured with deep respect to earth and humanity. We will continue to strengthen our performance in environmental, social, and managerial domains by placing sustainability at the core of all our actions in the years to come.

Get ready for a new journey through the glass!

MIXOLOGY 16

NEW

11.

terra

When the first Terra glasses had shipped, it was a given fact that new versions would be arriving soon. Yet here we're one year after, and two more new two Terra glasses are here to provide the already multipurpose glass with more versatility. Display and serve these fine-rimed exceptional design objects with pride.

28.

vera

First, born as a thriving modern redefinition of the classic Turkish tea glass and, inevitably, found its way to fine-looking, sleek tumblers. The vague tulip shape and overall simplificative perfection make them ideal for any contemporary settings.

27.

valeria

This's accessible sophistication! The finely designed polygon base of Valeria plays with light and colors. The playful angles of the base create visual depth and also sustain a solid and balanced structure. The straight lines rising from the corners seamlessly melt toward the round rim to polish off the high-end feel.

51.

truva

A humble yet elegant classical form that also provides modern-day ergonomic demands. Excellent cordial glass for daytime escapades with close friends when you serve sweet fruit liqueurs.

29.

assos

Its soft contour and those shy, warm curves give Assos an irresistibly friendly and familiar character. On the one hand, they were designed to be used for daily enjoyment; on the other hand, that intimate charm feels so alright for guests on every possible occasion. Their "most suitable for" range goes from water to cocktails.

91.

vera (carafe)

This gorgeous carafe is ably practical as it fits flawlessly into the typical fridge door. The level of minimal aesthetics and function combined here so naturally is a rare occasion for any design genre. All the above make Vera carafe an authentic presentation of contemporary living.

LIFE WITHOUT WALLS

Being stuck behind walls made us yearn for open spaces. We made peace with nature, the forests, wilderness, and mountains. Even the appreciation of the miniature balconies goes up to the roof. It is no longer solely about the square meter, but it is getting the most out of the outdoor space at hand and enjoying it to the fullest. Lay down on a comfy, chich sofa; have a bowl of fresh fruits on the side table; and take a sip of your soothing cocktail.

PERSONAL PREFERENCES

Don't let anyone mandate the ways you enjoy your whiskey. Know your drink, embrace your palette, and drink it the way you love without a shade of shame. If you like whiskey cocktails, don't mind the noise of neat drinkers, and have your cocktail with the best suitable and available whiskey. Whiskey cocktails are nearly as old as whiskey itself, going back to the 17th century.

LAV

STARTING A TRADITION

Holidays and special days are the best opportunities for kids to have truly magical moments that they will cherish throughout their lives. These occasions are the best to sow the seeds of new family traditions by simply preparing creative and heavenly drinks for kids. Both grownups with their fancy cocktails and kids with their playful drinks enjoy a shared memory in LAV Tokyo glasses.

NOT EVEN A FRUIT?

One of the most controversial fruits. Although it is in its name, "strawberry" is definitely not a berry. Eggplant is a berry, avocado is a berry, but strawberry is not. If we dare to go a bit far: Strawberry is not a single fruit, instead a pseudo fruit consisting of many tiny fruit-like formations. Each yellow dot is a seed and surrounded by its minuscule fruit. This structure makes strawberries a very high-fibered food. Regarding fiber richness, 4-5 strawberries can top a slice of good quality whole wheat bread.

GO WILD!

Styling for a table is not limited to tableware, cutlery, textiles, and ornaments. Flowers are indispensable, but you may approach this a little bit wilder by picking some seasonal wildflowers as your centerpiece. To establish color harmony, use a variety of fresh fruits with similar colors, prepare matching color drinks. This way, you can bring nature indoors and create a lovely setup for your guest.

NEW ERA, NEW MILKS

New ages come with new habits. As the amount of information we access increases, so do our demands and related options. Plant-based milk is one of the brand-new foods of the new age. The vegetable milk expansion, which started with soy milk and continued with almond and coconut, stretches its lines with rice, cashew, oat, and flax milk. In addition to being lactose-free and vegan, their common feature is that they are mainly produced using sustainable farming and production methods.

LAV

DELICIOUS WATER

Since we need to drink at least a couple of liters of water, why not turn this habit into something even more beneficial to our body. Let's start with the most basic, easy, and efficient upgrade to water: Lemon. It gives a little bit of Vitamin C, stimulates digestion, contains minerals that help sustain the body's balance, tastes good, and gives a fresher and healthier vibe with the scent and flavor. Don't be shy, and add some berries and greens into the mix.

HEAVENLY BREW

What's there to not like black tea? It isn't only a delicious drink - it's also full of various benefits that may improve health and well-being. From boosting energy and sharpness to fending off colds and improving heart health, black tea's strong arsenal can help you feel your best.

Although there're variations, the tea plants are pretty similar. The separation lies in the post-harvest process-related long oxidation. The fresh leaves are left to dry and darken until they gather more tannins, antioxidants, caffeine, and flavor. With this complete oxidation, black tea gains a more effortless drinkability on an empty stomach than green tea. Black tea also owns a remarkably extended shelf-life; it can stay fresh for two to three years if stored properly.

UNUSUALLY TASTY

This eye-catching dessert hits two holiday seasons with one recipe. The official fruit of Fall, Halloween, and Thanksgiving pumpkin is the prominent headliner here. But the co-star of this appealing LAV Ada service is a bit unusual; it is a semolina-based pudding. Milk puddings with semolina are denser and have a particular micro popping effect in the mouth.

SUPER LENTILS

Lentils come in similar shapes but various colors like red, green, black, yellow, or orange. The color doesn't change the fact that they are all superfoods. They are even more superior because they're affordable. From soups to salads, warm dishes to puree, countless doable recipes from all around the globe can be found without a sweat.

THE PERFECT COUPLE

The ancient miracle yogurt and newly revived 150 years old granola is a match made in heaven. Taste and texture are on the opposite ends of the spectrum, but they complement each other perfectly. They're immense sources of fiber that provide numerous benefits to the digestive system. The first meal of the day should be bombastic and can give you the necessary kick to start the day. Pair this majestic couple with fresh or frozen fruits and seeds, and you'll have a fun and rich breakfast.

TASTY BOOST

Since boosting our immune system is top of all our agendas for the last two years, so are the fresh juices. It is tastier, easier, and fancier to consume than eating each fruit or veggie. Colorful fruit and veggie juices are beneficial to our health and great refreshers to serve and color up your setting.

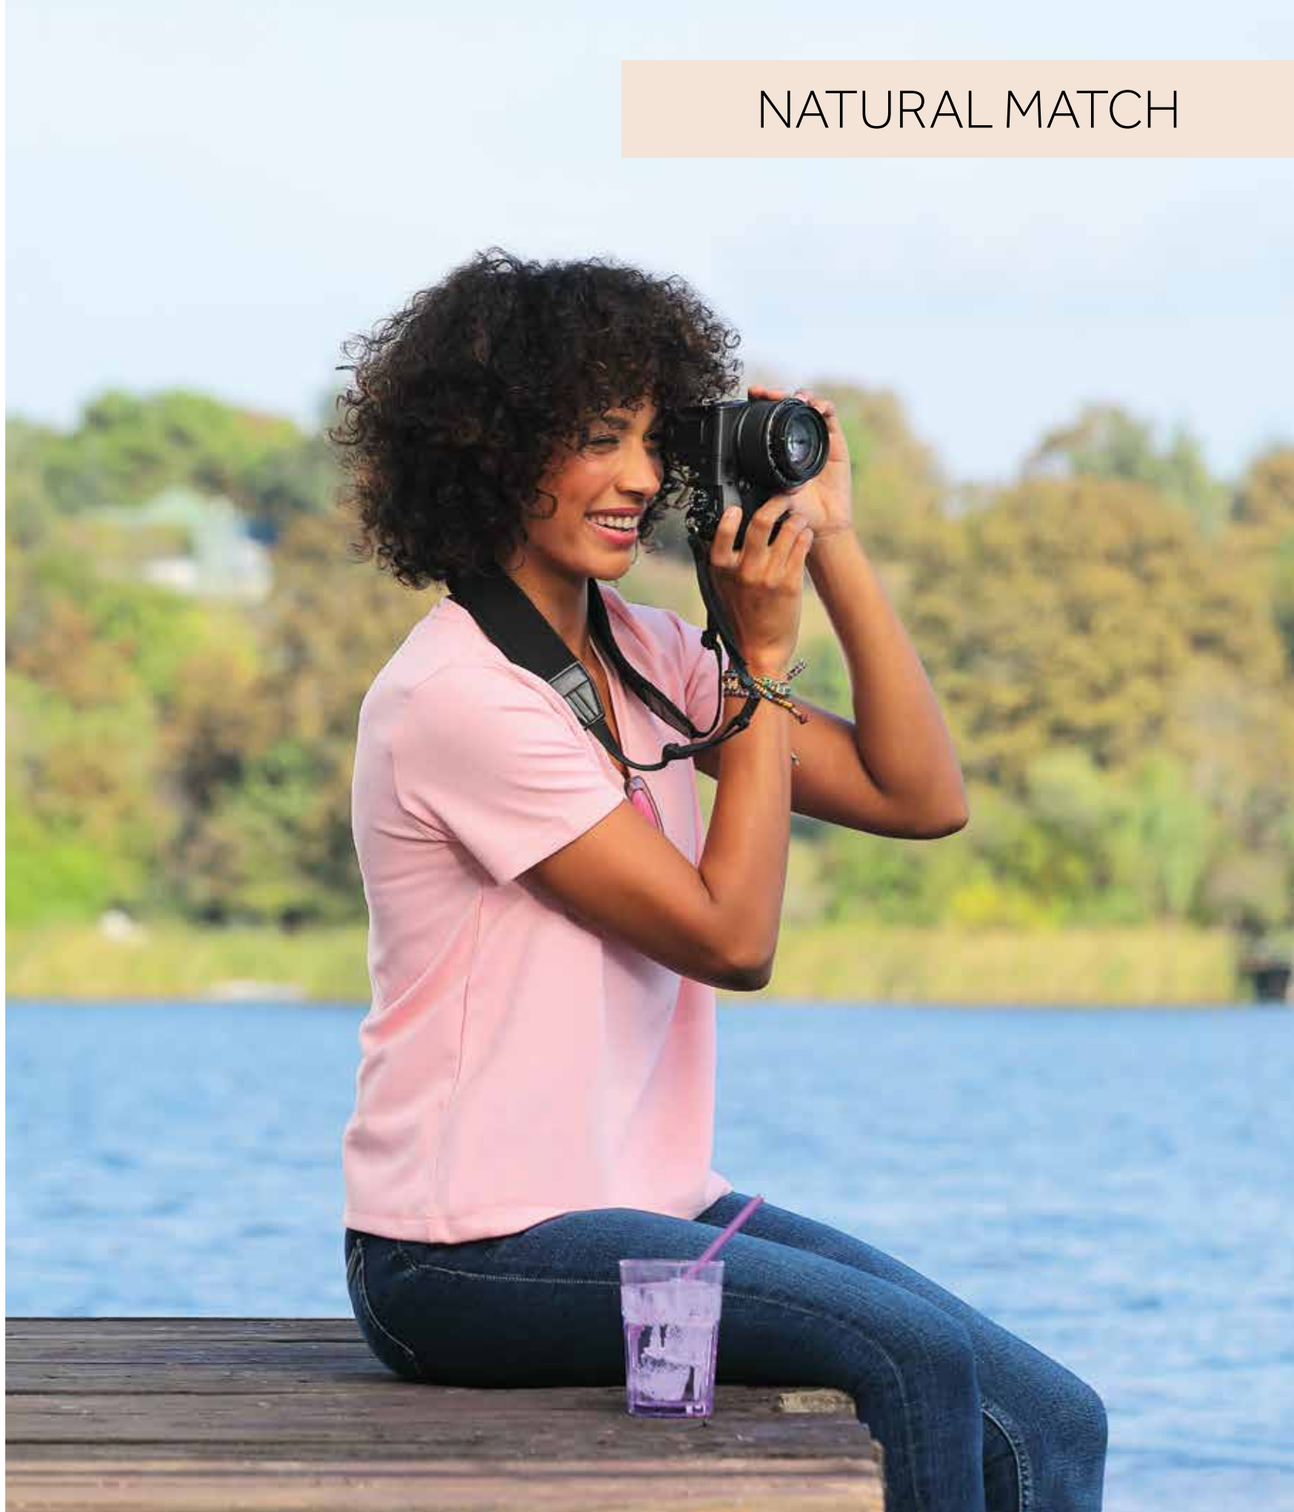
NATURAL MATCH



alluring darks

open & discover

Prepare yourself for daring and profound colors this season. Their presence at the tables will help us embrace life with more determination and high energy. Inspired by the dark hues of precious stones such as emerald, ruby, and sapphire and simulating their flamboyant enchantment, the collection embodies a contemporary romance with its forms and patterns.

primitive aesthetics

open & discover

With this collection, we pay tribute to the ancient wisdom of artisans and the collective design culture persevering and evolving for centuries. While the hand-drawn color blocks let us converge on the transformation of nature with their irregular and flawed forms, the inclusiveness of earth tones from olive green to terracotta and cappuccino brings mother earth's healing power to our tables.

quiet luxury

open & discover

Focusing on subtle forms for a minimalist aesthetic, the collection, with its timeless retro manner, allows versatile modern designs to be appreciated in any space. Inspired by the aesthetics of the 70s and 80s, graceful curves and narrow lines blend with neutral tones to reflect a gentle spirit.

soft metals

open & discover

While we make your dining tables stylish, we do not compromise on entertainment and settle for less fun. We also greet and say hello to the digitalized world with the optical illusions we create. Organic textures embedded with metallic glittery, grainy effects and fine lines meet with pastel color tones, resulting in a futuristic look.

LAV contact

about LAV...

Since its establishment in 1994, LAV has taken a leading role in the glassware industry thanks to its focus on market, customer, technology and innovation. Its facilities located in Kütahya, LAV is the world's fifth largest glassware manufacturer, supplying 2 million items every day with a large range of tumblers, stemware, bowls and etc. Today, LAV employs 2,000 people, with its sales and marketing office in Istanbul and two production plants built on a 300,000 square meter area in Kütahya.
LAV exports its innovative and unique glassware products to 130 countries, including France, Spain and USA in particular, as well as Brazil, the Philippines and China. It does this thanks to its globally extensive distribution and sales network, which reaches different landmark based countries around the world such as Zanzibar, Mauritius Islands, Victoria Falls, Tokyo, Sydney, etc.
LAV carries out its research and development activities on glassware production technologies at its Technopark facility, which is described as a "plant within a plant." Built in 2001, the innovation-focused Technopark is one of the three companies in the world which creates its own production technology.
