GLOW

Dear customers, dear friends,,

two difficult years lie behind us. Hotel and restaurant lockdowns around the world have not made everyday business easy for any of us.

But we believe that the situation will ease worldwide in 2022 and that people will enjoy travel, culinary delights and company again.

So we look into the future positively and I am pleased, after a one-year break, to present to you the new Zieher main catalogue 2022.

We were using the calm times last year for new developments and present proudly – among others – our new buffet system “Glow”.

With “Glow” you can stage your products as a radiant centrepiece. But you will also find proven design and quality products in the catalogue, valued by top restaurants and hotels from all over the world.

We hope you enjoy browsing and look forward to a joint successful new year.

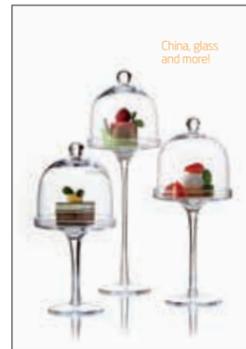

Yours sincerely

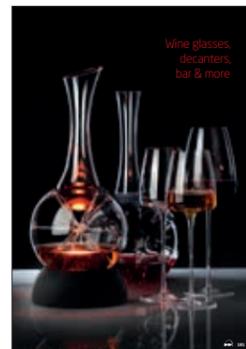

Dominik Zieher

Buffet

- buffet displays “Glow”
- buffet displays “Textura” – “Somnia” – “Crossline”
- buffet systems “Skyline” – “Squareline” – “Curve”
- The Zieher-System “Konkret!” – “Neo” – “V12” – “Classy” – “Luxor” – “Solid” – “StiXXX” – “Basic” – “Antique”
- cooling element “Chiller-Base”
- “Lightning Buffet”
- buffet platters made of natural stone, laminated plastic and glass, buffet steps made of glass
- buffet stands “Stablo” and “Falcon”
- buffet bowls made of pewter, brass, shell, glass and stainless steel
- buffet etageres made of stainless steel
- “Fingerfood-Tree”
- serving trays and buffet systems made of walnut: “Mercato” – “Solid”
- buffet bridges and trays “Podia”

5

Catering

- Bento Box
- melamine trays and accessories
- serving trays and cutlery boxes
- tray system “Modul”: walnut – melamine – glass and china inserts

127

China, glass and more

- main series and small series made of china/glass
- china plates, platters, bowls and small bowls
- glass plates, platters, bowls and small bowls
- napkin rings made of pewter
- charger plates
- chloches made of glass

147

Wine glasses, decanter, bar and more

- wine glass series VISION and “Tesoro”, an aid to wine enjoyment
- wine decanter “Doppio”
- wine decanter/carafe “Star” – “Star” mini
- wine decanter “Eddy” – “Eddy” mini, “Pebble”
- basic ring with LED for decanter “Star” and “Eddy”
- champagne cooler “Stablo” and champagne flute “Vaganza”
- “The Bar Collection”

181

Miniatures

- anti-slip coasters made of silicone
- glass miniatures, borosilicate glass, double-walled glass
- china miniatures
- stainless steel miniatures
- skewers and natural stone

210

Cruet stands, trays, etageres, and more

- Bento Box made of melamine
- trays made of melamine and wood
- chocolate/truffles boxes, suitable inserts made of solid surface material
- bread baskets/boxes, trays and snack boards made of walnut
- etageres made of stainless steel
- jam trays and food displays
- cruet stands and trays with suitable inserts
- wind lights and accessories

232

Room service, guest rooms

- roomservice trays and accessories
- storage/presentation boxes, cutlery box “Solid”
- shelves and etageres
- displays and trays “Podia”

Excellence since 1986 - Exclusive design since 2006

In the year 2006 we designed the first items ourselves and placed them on the market.
Since that time developing and implementing exclusive design objects has been our calling.
On this page we show a couple of the most important creations of the past years.

Design, innovation and quality are our mission!

"Glow" - reframing the buffet!

Filigree displays and frames with integrated lighting form the basis of the "Glow" system.

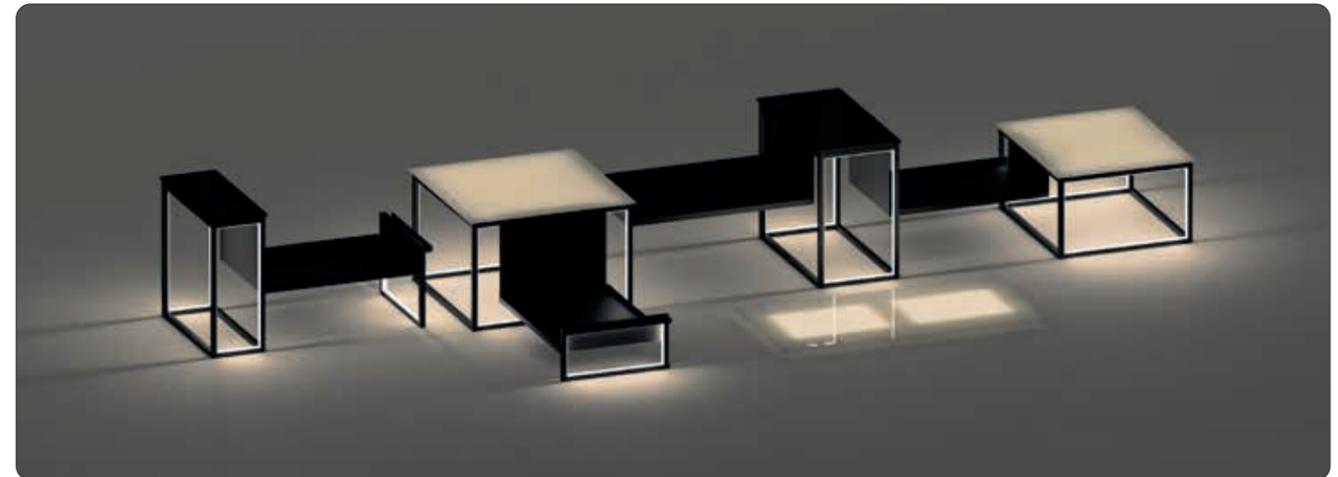

The matt black coating of these slim but still extremely sturdy lighting objects remains discreetly in the background and leaves the presentation of dishes to the warm and glare-free light.

"Glow" is a flexible system that creates unmatched buffet stagings. The filigree construction not only allows food and beverages to be presented on the displays, their inner side also creates enough space to effectively present delicacies in the right light.

All elements can be used lying or upright and create presentation levels at different heights - the basis for varied

and appealing buffet arrangements. Two connecting boards made of bent sheet metal can be attached as desired and thus enable the flexible construction of several elements - even across corners. Matching buffet platters made of glass or laminated plastic, as well as trays made of melamine, complete the system.

Zieher buffet systems have been inspiring with innovative lighting concepts for many years. In "Glow", this is now firmly integrated for the first time. The resulting subtle look of these lighting objects creates completely new facets of an atmospheric buffet ambience.

LED display "Glow" L

steel, matt black (powder coating), with 2 circumferential LED stripes (warmwhite), incl. 2 connections for power supply and -forwarding

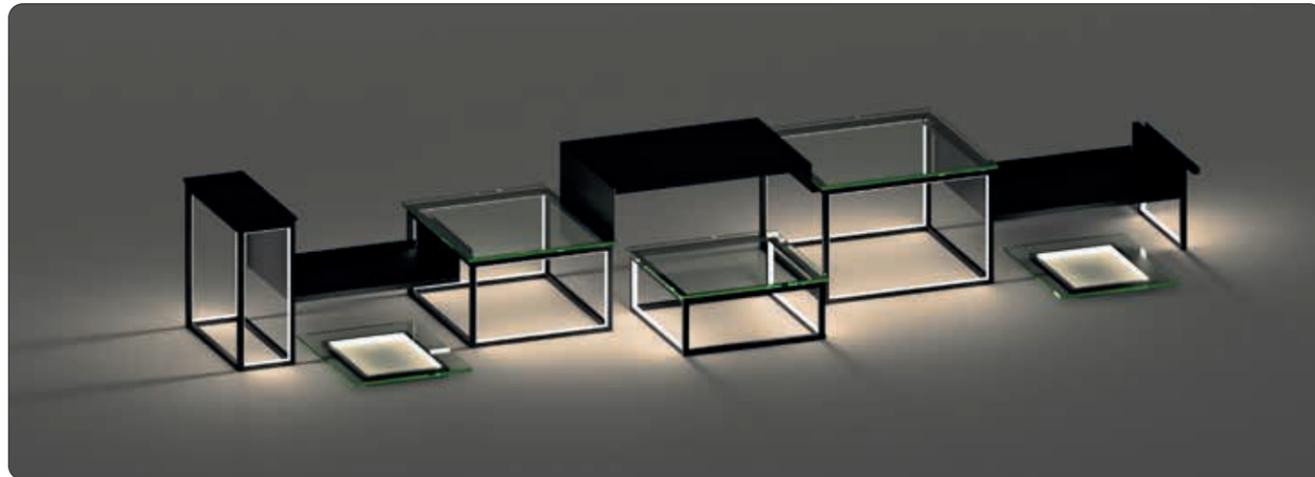

item	l x w x h in cm
8400.32	48x48x32

Components of the system:

- The illuminated cuboids offer the possibility of operating up to three elements on one power supply, due to the two integrated connection sockets.
- Illuminated frames can be placed horizontally and thus enable the effective lighting of translucent buffet platters of all kinds. When set up, they fit into the height grid of the buffet cuboids and thus function as a space-saving support for attached connecting boards.
- The connecting boards are made of powder-coated sheet metal and allow a two-sided use. They can simply be hung between the cuboids and frames, creating additional presentation levels and areas.
- Precisely fitting glass platters of various types and platters made of black laminated plastic make it possible to quickly

- and easily close the top of the illuminated cuboids. Various melamine trays from the range can also be used on some of the cubes. In the lying position, there is a large selection of suitable glass platters from the Zieher range available (50 x 50cm / 50 x 42cm / 42 x 42cm). These buffet platters are available on pages 50 to 57. If the cuboids are positioned upright, they can be covered with laminated plastic platters.
- Rubberised magnetic buffers ensure the non-slip and noiseless support of all platters and trays. These are available as accessories and can be placed anywhere on the displays and frames. Furthermore, they create the necessary distance in order to place glass or laminated plastic platters in spite of the attached connecting boards.

Accessories LED lighting:

- The power supplies are available with EU, US and UK plugs. The power of the supplies is sufficient to connect up to three cuboids or frames. Since each cuboid has two connection options, they can be strung together without any problems.
- As they only have one connection option, the two frames form the end of the chain. The energy-efficient LED lighting in warm white colour is operated with harmless 24 volts.
- Connecting cables with angled plugs are available in two lengths and help to keep the number of cables required as low as possible in numerous setups.
- Shapely and reusable cable holders made of durable silicone help to lay and fix power- and connecting cables inconspicuously or to bundle several cables.

connecting cable "Glow"

schematic illustration

Please note: 

This power supply is designed for the simultaneous use of a maximum of 3 LED displays or -frames from the "Glow" series!

cable holder
silicone, black, length 8 cm, with 3 fastening holes, reusable due to a detachable lock, suitable for guiding cables

item	PU
8412	10 pcs

base tray "Modul"
melamine, black, surface matt, food-safe, dishwasher-safe, not suitable for microwave and combi steam oven

item	l x w x h in cm	PU
4581	53x28x1.8	2 pcs

Please note: 

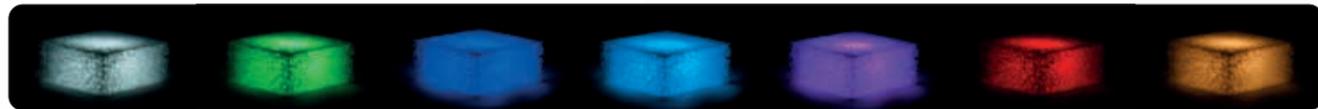

The melamine tray 4581 fits perfectly on the LED display M (item 8400.24) when set up.

More trays and boxes made of melamine are available from page 130 on.

The cloches and porcelain bowls and plates of the series “Cuspis” are available on page 152 and 176.

In order to grant a harmonic all-over illumination while using stacked cuboids, it is recommended to use one LED lamp per item. For usage of bigger buffet platters, we suggest to employ the elements with 30 cm edge length. Due to the flexible material, we recommend stacking a maximum of two cubes on top of each other, when the system is equipped with heavy platters or bowls.

precisely fitting recess for ZIEHER LED lights (page 48/49)

buffet display “Textura”

polyethylene, transparent, with notch for rechargeable LED-light item 8150

item	l x w x h in cm
8232.24	approx. 24x24x10.5
8232.30	approx. 30x30x10.5

“Textura” - indestructible, innovative, exclusive!

The exclusive cuboids of the “Textura” series are exceedingly interesting, even at a second glance, due to their awesome structure. They consist of thin polyethylene filaments, which are convoluted intricately and fused together. This awards them a flexible but nevertheless very stable texture. The true potential of this innovative material is only disclosed

in connection with light. The light-conducting properties of the filigree filaments manifest effectively when using the rechargeable Zieher LED light (page 48/49), which fits exactly into the cut-outs on the bottom side of the displays. The “Textura” buffet cuboids are available in two sizes which, when used separately or stacked on top of each

All information about the cooling elements “Chiller Base” can be found on pages 42 and 43

other, create different presentation levels on the buffet. Buffet platters and trays are reliably kept in position due to the non-slip features of this material. “Textura” lives up to the high demands of gastronomy and catering in numerous ways. The displays are indestructible and very light, washable and dirt-repellent. The countless interspaces create a light-flooded meshwork, which dries very quickly and is therefore resistant to humidity and mold. Also the raw material itself is something to be proud of. Polyethylene can repeatedly be 100% recycled without losing its outstanding characteristics. It is physiologically non-hazardous, odorless, tasteless and resistant to a variety of acids, oils and grease.

At first glance the golden branches, carefully strapped to a bundle, are reminiscent of a besom and braided objects of a different kind. The buffet displays and luminaires of the “Somnia” series are assembled from organically shaped, filigree rods which are made of solid brass in traditional sand casting. These single components, reminiscent of brittle branches, are afterwards melded in complex handicraft to impressive unique pieces. The matt-golden surface of the “Somnia” series harmonises elegantly with the grey glass of the handblown bowls, which have been specially adapted to the shape of the small stands. The two bigger buffet raisers form a precious basis for bowls and buffet platters of all kind. Optionally available black rubber caps can be fixed if required to improve the slip resistance and to protect the sensitive surface of furniture. The smallest version of these little pieces of art also impresses at a set table. An amuse-bouche, bedded on a nest of golden branches, will be treasured by the guests for a long time.

item	Ø in cm	height in cm	PU
4991.02	9	14,5	6 pcs

The wind light of the “Somnia” series is equipped with a solid base plate with an elevated rim. This base avoids a leakage of wax and protects the table surface from heat. Furthermore, it forms the frame for a removable cylinder, made of heat resistant glass, which by way of its satined surface, intensifies the mood of light and protects the flame from wind at the same time. With candlelight, this extraordinary lighting object creates fascinating effects and provides for a cosy and comfortable ambience.

The buffet platters "Industry 2.0" are available on page 53.

Buffet bowls in copper PVD coating are available on request.

More dark grey bowls are available on pages 78 to 83.

For buffet bowl item 5704 (page 79) and platters of 42 cm x 42 cm and bigger.

For buffet bowl item 5704 (page 79) and platters of 42 cm x 42 cm and bigger.

Filigree understatement!

The filigree displays of the "Crossline" series feature an enormous stability due to their cleverly elaborated statics. These elements, which have been deliberately designed to have a plain and restrained appearance, unobtrusively blend into every ambience.

The rectangular base has been constructed especially for a presentation bowl made of dark grey glass, which impresses by its length of 130 cm. Hinged beams at the upper side of the trestle can be adjusted to the shape of the bowl individually. Hence also Zieher buffet platters of 80 cm x 40 cm and bigger can be installed. The supports are felt-covered, which minimises disturbing noise, evens out smaller asperities and provides for slip-resistance. Two more versions in square shape are constructed identically and are, for example, suitable for buffet platters in sizes 42 cm x 42 cm or 50 cm x 50 cm.

All trestles are made of galvanised steel and afterwards coated with a robust and scratch-proof powder-coating in a classy matt black. Therefore the stands are also suitable for outdoor areas.

Industrial charme

The variant of raw steel with a rusted and sealed surface inspires by the charm of corroded metal and perfectly matches the industrial style of modern architecture! Low weight, space-saving storage due to its stackability, easy handling and quick installation are just a few advantages of the "Crossline" series. The neutral colouring of the stands can be combined harmoniously with many different materials. Thanks to the large variety of Zieher buffet platters, the arrangement of buffets can be redesigned again and again.

Hinged beams at the upper side of the trestle can be adjusted individually to the shape of bowls and platters.

"Skyline" – Manhattan-Feeling on the buffet

"Skyline" – the original!

"Skyline", Zieher's buffet system, allows a maximum of flexibility for the most exclusive buffet presentations. Different heights enable you to install big buffet platters on the one hand - on the other hand, they can be stabilised by insertion into the corresponding serration. The square columns are made of highly-polished stainless steel and due to the standardised serration heights, they can be combined with the "Squareline" (pages 24 to 26) and "Curve" series (page 27).

The spectacular look that brings the silhouette of skyscrapers to mind, is available in a highly-polished version and for an intensified effect, also in black and white colouring (gold and copper on request!). The optionally available Zieher LED-lights are a perfect addition to the system and come in 2 versions: cabled and rechargeable (pages 48 and 49). In combination with light-diffusing tubes (page 48), they provide a perfect illumination of the system in various colours.

The buffet platters are available on page 50.

"Skyline" – the original

Buffet platters made of glass, laminated plastic and slate are available from page 50 onwards.

"Skyline" made by Zieher - Compare the original to copies of inferior quality!

"Skyline"

Reasons to stick with the original:

- Different versions: polished, matt black and white (golden and copper on request)
- Highest Zieher quality and perfect accuracy in manufacturing
- Compatibility with other Zieher systems
- 100 % fitting illumination
- Massive stainless steel 18/10
- Design by Zieher in 2009

Cabled and rechargeable, battery-powered LED-lights are available on pages 48 and 49.

The "Skyline" buffet system allows a maximum of flexibility for the most exclusive buffet presentations.

Due to the same serration heights, the "Skyline" system is combinable with our "Squareline" (pages 24 to 26) and "Curve" systems (page 27). The different adaptors of the "Squareline" system may equally be used with the "Skyline" stands (exception: columns with 58 cm height).

Some exemplary displays can be seen here:

"Skyline" black, connector pieces acrylic glass satined (page 26), acrylic glass tubes (page 48), rechargeable LED-lights (page 49).

"Skyline" highly polished, connector pieces acrylic glass black (page 26), platters black glass (page 54), acrylic glass tubes (page 48), rechargeable LED-lights (page 49).

"Squareline"

"Squareline" black, acrylic connector pieces satined (page 26), "Lightning Buffet" tubes (page 48), rechargeable LED-lights (page 49).

The rechargeable LED-light (item 8150, optionally available, page 49) offers numerous fixedly pre-installed colours, as well as special programs like colour gradient and flickering-candle-effect. The compatible remote control (item 8151) allows the synchronisation of up to 20 LED-lights at the same time and enables the change of the complete buffet-colouring by just pressing one button!

Alternatively and especially for fixed buffet installations, we recommend the use of the Zieher LED-lights with cable (item 8104, page 48).

With this item, 5 lighting colours can be set by using stick-on colour-filters.

The connector pieces feature slots, so that the cables can be laid invisibly through the columns of the "Lightning Buffet". To do this, the detachable lids of the acrylic tubes have to be removed. If cabled LED-lights are used, it is recommended to lay down all components of a "Squareline"- tower next to each other on the table to facilitate the installation of the cables.

"Squareline" black, acrylic connector pieces black (page 26), glass platters black (page 54), glass steps black (page 58).

Please note:

To illuminate the system, you will need one LED-light and one acrylic column in the fitting size (12 resp. 24 cm) for each "Squareline" stand. The acrylic columns are available in sets of 3 pieces (items 8120...) and can be found on page 48, the information on our LED-lights can be found on pages 48 and 49.

"Squareline" copper (on request), acrylic connector pieces satined (page 24), glass platters white (page 55), "Lightning Buffet" tubes (page 48), rechargeable LED-lights (page 49).

"Squareline" white, acrylic connector pieces black (page 26), glass platters black (page 54), glass steps black and glass trays black (page 58).

"Squareline"

The buffet system with 1000 faces!

Our classic "Skyline" has been changed and advanced to become "Squareline", which now offers several new features apart from its pure design.

The stainless steel displays are available in two heights. Three versions - highly polished, matt black and white (golden and copper on request), grant the columns completely different effects! The "Squareline" towers can be stacked on top of each other by using connector pieces, which are available in two different versions. A 90° rotated arrangement of the stands increases the creative leeway tremendously and permits a buffet set-up at an angle.

Besides the technical aspect, the connector pieces are mainly a decorative element.

They are available in glossy black or satin light-diffusing acrylic. In connection with the various versions of displays and buffet platters, countless possibilities for the creation of a buffet arise.

Optionally, "Squareline" offers the possibility of a 100% integration of our "Lightning Buffet" - the full height of the columns will be illuminated from the inside. When using the satined connector pieces, their light-diffusing effect even enhances the spectacular sight. The system is based on the buffet classic "Skyline" (pages 18 to 21), both in construction and in form. So both systems can be combined quite easily.

Just let your imagination run wild!

"Squareline" polished, acrylic connector pieces satined (page 26), platters transparent glass (page 56), buffet platter (page 56) and glass steps transparent (page 58), "Lightning Buffet" tubes (page 48), rechargeable LED-lights (page 49).

Flexibility with a concept

"Curve" is made of 3 mm strong, galvanised steel with a high grade powder coating.

This guarantees great stability and corrosion-resistance. The gaps between the bars were expressly chosen by the Milanese designer Itamar Harari to make the raisers completely compatible with the systems "Skyline" (pages 18 to 23) and "Squareline" (pages 24 to 26). The attractively priced "Curve" is therefore not only suitable as a starter version,

but also as an optimal extension of existing systems. During the development of "Curve", special attention was given to the mobile usage. Thus all components can be stored in an extremely space-saving way. Simple and swift to install, "Curve" is the perfect equipment for outdoor areas, events and catering.

Our complete range of buffet platters is available on pages 50 bis 58.

The "Zieher-System"

Zieher offers innumerable possibilities to present food optically appealing and highly flexible. When developing new buffet products, it is most important for Zieher to guarantee compatibility among the individual systems.

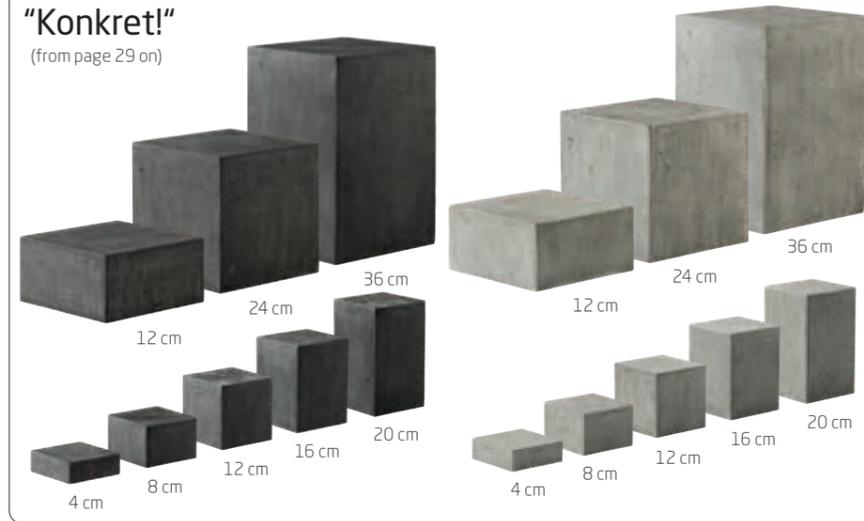

The "Zieher-System" with its different heights of 12, 24 and 36 cm or 8, 16, and 24 cm leads to a perfect composition of different presentation levels on the buffet, thus offering more

flexibility in its arrangement. A wide range of buffet platters and trays of hardened glass, natural slate and laminated plastic in various styles is available on pages 51 to 58.

Thanks to the boundless possibilities in varying materials and designs, every buffet can easily be adapted to any accommodation. The system becomes part of the whole interior and assimilates harmonically into any ambiance.

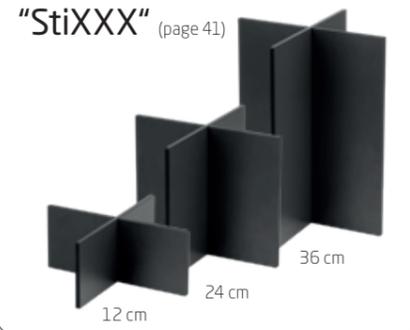

"Konkret!"

"Konkret!" - distinct design for highest flexibility!

Plain lines, neutral shapes and two different colour variations put your food presentation into focus and offer a maximum of flexibility, while at the same time, using the available space at your buffet most effectively. Maximum reduced shapes in combination with the rough look of concrete - "Konkret!" blends in particularly well with modern architecture. "Less is more" is the motto! Both variants of the displays (light grey and dark grey) are available in eight sizes, a dark grey XXL bowl impresses with huge size paired with light weight.

The XXL bowl "Konkret!" is available on page 31.

The displays consist of a mixture of fibreglass and stone and therefore offer the deceptively genuine optics of concrete combined with low weight and high stability, which greatly facilitates handling. The puristic flair of that system will be intensified by using glass platters. Those and other variations made of laminated plastic and slate are available on pages 50 to 58.

"Konkret!"

The XXL bowl in dark-grey concrete look inspires by its enormous size and the low weight. In empty state, it can easily be carried by one person. A filigree, but extremely solid stand made of powder-coated steel forms the perfect basis. A round glass plate separates ice from melting water and at the same time creates space for the Zieher rechargeable LED-light (page 49), which allows the illumination of the ice in striking colours. No matter if placed on the buffet table or on the stand - this bowl will leave a permanent impression on your guests!

Resin, anthracite, matt, translucent, not dishwasher-safe, open underside, with notch for cable on the back. Can be used on both sides!

item	l x w x h in cm
7005.16	53x32,5x16

Please note:

Isolated air inclusions in the material as well as slight colour deviations cannot be avoided due to production technology.

The buffet system "Neo" is made of anthracite coloured resin. The matt surfaces and softly rounded edges of these translucent cuboids appear unobtrusive and modern. "Neo" unfolds its true potential if the columns are effectively illuminated.

The optionally available LED-lights (pages 48 and 49), alternatively rechargeable or cabled, are the ideal completion to put "Neo" into its true light. Thanks to the battery-operated LED lights, which are waterproof to a depth of 1 metre and can be remote-controlled, even the ice in the ice containers can be illuminated from below – a truly fascinating sight. The large selection of different light colours enables spectacular effects!

buffet display "V12"

8205.12	24x24x12
8205.24	24x24x24
8205.36	24x24x36

"V12" combines modern and reduced forms with the precious material carbon. The elegant and three-dimensional look of the carbon fibre paired with maximum stability - "V12" adds high-tech to the buffet!

In connection with the huge Zieher assortment of buffet platters, "V12" provides a maximum in flexibility and best usage of buffet surfaces. Six different sizes of the "V12" displays offer a lot of possibilities for the individual composition of your buffet.

The standard heights of the carbon buffet displays of 12, 24 and 36 cm resp. 8, 16 and 24 cm permit an easy and simple combination with other Zieher systems. For an overview, please consult page 28.

The buffet stands "Basic" are available on page 42, buffet plates in many variants from pages 50 to 57.

"Classy"

The buffet displays "Classy" are made of translucent material and impress by their fascinating texture which is reminiscent of Italian marble or alabaster. The precise workmanship of the cubes as well as the silk-matt surface increase the fancy impression even more.

"Classy" is available in the Zieher system heights of 8, 16 and 24 cm and can therefore be combined in various ways. The open bottom side of the large displays allows an effective illumination by the optionally available LED-lights. With their different light colours, the LED-lights emphasise the appealing look and the interesting marbling of the material.

The small cube has no open underside and thus cannot be illuminated. The advantage of this construction lies in its high functionality. Its dimensions of 24 cm x 16 cm x 8 cm enable a positioning in 3 heights - a clever supplement to the squarish displays.

It is possible to stage "Classy" with or without lighting, strikingly eye-catching or quite discreetly. Whether unobtrusive and modern or playful and opulent - "Classy" fits perfectly into any ambience!

"Classy"

The LED-lights are available on pages 48 and 49.

The baskets of the "Reef" series are available on pages 70 to 73.

8230.16	38x38x16
8230.24	38x38x24

The shimmering displays of the "Luxor" series enchant by the colour play of golden shades in variable nuances. This effect is created by high-quality shell imitations, which are arranged fan-shaped on a fibreglass base in sophisticated handcrafting. The honed and highly polished, multiple sealing with resin (Polyresin), emphasises the pattern and the pearlescent shine of the gold-coloured discs and provides the surface with a striking depth effect.

The buffet cuboids are available in heights of 8, 16 and 24 cm and are therefore compatible with many other displays of the Zieher system. The 38 cm x 38 cm large bearing surface can be used directly for presentation purposes or as a basis for buffet platters or stairs of various kinds.

"Luxor" adds a touch of extravagance to both the modern and classic ambiance, setting extraordinary accents in any environment.

Buffet bowls made of grey glass are available on pages 78 to 83.

The glass tubes of the "Flex" series are available on page 212.

8221.24	38x38x24

"Solid"

Please note the care instructions!
Not dishwasher-safe, do not immerse in water!

The buffet displays of the "Solid" series are, as all the other items of this series, made of solid walnut wood. They may be used as containers for cutlery or French bread, but they are particularly suitable for the elevation of the "Modul" walnut trays (page 136) or other buffet platters.

The filigree finger joints at the corners testify to precise craftsmanship of the highest quality and guarantee perfect stability!

The displays made of solid wood are visually appealing and fit perfectly into the existing buffet systems "Solid" and "Mercato" (pages 110 to 125).

buffet display "Solid"

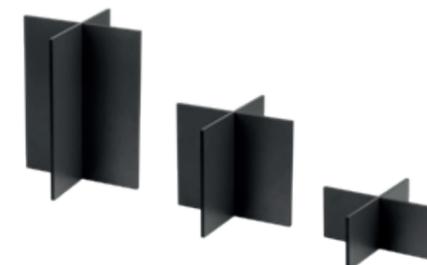

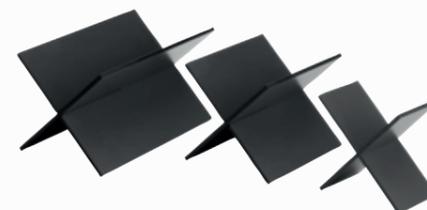

walnut, food-safe sealed, not dishwasher-safe, bottom side open, can be used as a stand or as a container

More displays and buffet systems made of walnut are available from page 110 on.

"StiXXX"

The indestructibility of laminated platters meets the advantages of plug-in systems. The plain displays are loosely stuck together, which ensures a quick and uncomplicated setup as well as a space-saving storage of the single components. Thereby "StiXXX" meets in particular the hard requirements of daily use in the catering business.

The heights of the puristic displays match perfectly with other series of the Zieher-System, by what creates numerous possible variants. Positioned as an "X" results in further presentation possibilities with a particularly slight and filigree alignment. The Zieher buffet platters and displays made of laminate are usable on both sides by the double-sided decoration. This exceedingly robust raw material is break- and scratch-proof, antistatic and dishwasher-safe and thus offers numerous advantages compared to other raw materials.

buffet display "StiXXX"

Food: Pâtisserie Walter (www.patisserie.de)

The card holder made of stainless steel is available on page 106.

"Basic" & "Konkret!"

buffet stand "Basic"
stainless steel 18/10 brushed (pipe Ø 3.2 cm), with felt pad at the top (black)

item	Ø in cm	height in cm	PU
8080.04	7	4	2 pcs
8080.08	7	8	2 pcs
8080.16	7	16	2 pcs
8080.24	7	24	2 pcs

"Basic" is the simple and flexible solution to create different presentation levels. The high-quality columns made of matt brushed stainless steel (18/10) are a fitting base for buffet platters made of glass and other materials. The columns are fitted with felt pads on the top to protect the surface of glass platters and to level out any unevenness of the tables. The feet with 7 cm in diameter guarantee firm standing.

The unobtrusive and unadorned design of the buffet stands puts food and drinks into the limelight.

"Basic" is available in four heights and can be combined with several Zieher buffet systems (page 28). The carbon buffet stands "V12" presented here can be found on pages 34 and 35.

Please note:

We do not recommend the use of "Basic" in combination with buffet platters made of natural slate. Due to the slightly varying thickness of natural slate platters, this combination might shake.

"Basic" & "V12" Carbon

"Chiller-Base"

Cooling pillows

The cooling pads have been tailor-made for the melamine base to provide for an optimal cooling surface by the perfect fit. The pads can optionally be flipped, depending on whether the black top or the white bottom fits into the overall picture more harmoniously. So, they are applicable inconspicuously, even with slightly translucent or satined buffet platters.

The attractive contrast of top and bottom can also be used on the laid table to deliberately set accents. Serving chilled food becomes a visual highlight. The high-quality case made of black or white nylon fabric looks very noble and yet discreet. It is filled with gel, which remains malleable, even when frozen and thus allows an adaptation to a wide variety of tableware used.

Buffet platters made of glass in the formats 42 cm x 42 cm and 50 cm x 50 cm can be found on pages 54 to 57.

Precise recesses on the underside facilitate positioning

The porcelain bowl "Cave" is available on page 163.

"Chiller-Base"

The "Textura" buffet displays are available on page 12 / 13.

"Chiller-Base" - just stay cool!

The cooling elements by Zieher are an elegant and simple solution for a quick and flexible installation of chilled platters. They can be arranged either at different heights by using displays or freely positioned on the buffet table.

The flat bowls are available in matt black and white melamine and have been designed specifically for food whose presentation can be extended significantly by cooling.

The puristic form, the compact height of only 35 mm as well as the restrained colouring allow a stylishly discreet integration into numerous buffet constructions. Tailored recesses on the underside of the trays facilitate symmetrical positioning on most Zieher buffet systems. So a harmonious overall picture can be achieved quickly. Unobtrusive rubber buffers in the corners of the "Chiller-Base" ensure a non-slip and secure fit of laid-up platters in sizes starting from 42 x 42 cm (page 54 - 57).

Due to the density of the material, the glow may be limited.

Bringing light into the darkness!

The illuminated buffet stands, in connection with platters made of natural slate, laminated plastic or glass (pages 50 to 57), make every buffet shine in a radiant new light. The innovative LED technology does not radiate any heat and is powered by a harmless voltage. It is characterised by its longevity and its low power consumption. The standard light of the cabled LED is white, but thanks to the coloured plastic covers, the colour scale is enlarged to contain red, yellow, green and blue (page 48).

Alternatively, there is a rechargeable LED-light with several different functions available. Besides a fixed colour range and special programs, its particular feature is a remote control that enables changing colours and programs during use. For a detailed description of this LED-light and its functions, please check out page 49.

The columns made of satined acrylic (page 48) are available in seven sizes and feature a removable cover to enable the insertion of round bowls.

The decanters "Star" and "Eddy" are available on page 196 und 197.

Rechargeable LED-light with radio remote control:

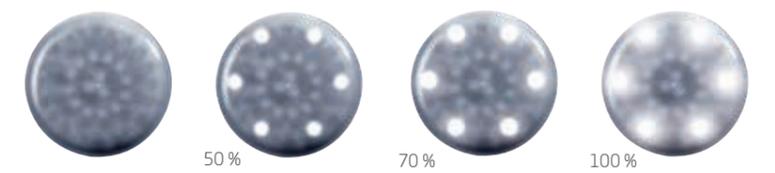

The compact LED-light is controlled by remote control, which allows for a more flexible use of the Zieher "Lightning Buffet" and renders it independent from any power supply and spatial requirement.

This creates a lot of new possibilities for the buffet setup: out in the open, next to the pool or in the middle of the room - without any troublesome cables and controllers that might get into the guests' or the personnel's way. The necessary radio remote control item 8151 (to be ordered separately) rounds off the whole system in regard to function and handling and allows to choose the colouring within a range of up to 15 m without dismantling the buffet first. Due to many different colours and special programs, the buffet will fit into every kind of atmosphere. The lighting colour for the complete buffet can be changed by pressing only one button. Experience the "Lightning Buffet" - no matter where - you will be excited!

Please note: The luminosity depends on the spatial realities; the actual colouring may deviate from the colours shown in the pictures!

- 7 fixed colours and 3 special programs, manageable via remote control (white, green, red, blue, yellow, violet, turquoise, flickering-candle-effect, colour change, colour gradient)
- 3 different brightness-settings selectable (100 % - 70 % - 50 %, only adjustable directly)
- Fixedly integrated high-performance batteries guarantee a running-time of up to 20 hrs (at the lowest brightness-setting)
- LED-light waterproof up to a depth of 1 m
- Remote control (to be ordered separately) controls up to 20 LED-lights simultaneously / range up to 15 m
- Charging device can be mounted on a wall and features a space-saving cable spool

Buffet platters and more!

Zieher is offering a wide range of buffet platters made of laminated plastic, several kinds of glass and natural slate. Due to the wide choice of formats and types of materials, there are many possibilities of combinations with Zieher's buffet systems (pages 5 to 48). The offer is being completed by various buffet stairs, trays and bowls (pages 58 to 94).

Buffet platters made of slate!

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical cleavage. Every piece is unique. Small deviations in structure, thickness (10 to 15 mm) and weight of the platters cannot be avoided, as it is in the nature of the product. Also, there could be single inclusions of other minerals and fossils. These exceptional features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid) may damage the surface in case of prolonged contact. Therefore we recommend avoiding any direct contact with edibles.

Buffet platters made of laminated plastic!

- Dark grey resp. black, black intermediate ply
- 8 mm thick
- Break-proof
- Dishwasher-safe
- Scratch-proof, antistatic

Buffet platters made of laminated plastic!

The black buffet panels 8010... are sized to fit the LED displays „Glow“. They are available as of page 8.

The charm of transience

Break- and scratch-resistant, anti-static and dishwasher-safe – these features of laminated plastic platters and the resulting advantages are convincing!

The buffet platters made of laminated plastic are available in two neutral versions as well as in an extraordinary variation.

Unplastered brick-lined walls, load-bearing structural elements made of steel beams, exposed concrete and the morbid charms of abandoned factory buildings create the ambience for the rust-coloured decoration "Industry 2.0". This is evocative of weathered steel surfaces, which are marked by decades of corrosion and fits perfectly into the industrial style of modern architecture.

All laminated buffet platters by Zieher have a dark middle layer and can be used on both sides because of their double-coating.

Please note:

With these decors, each plate is unique – none of them look alike.

Each piece is unique!

The irregular colouring of the Zieher buffet platters is created by colour pigments, which are manually applied and fused into the glass. The colour is fixed inside the glass and therefore dishwasher-safe and abrasion resistant. Structured underside and rounded edges emphasise the effect of the platters and the individual and interesting shades of grey and intensity of colour create unique patterns in each platter!

Buffet platters made of transparent glass!

The glass steps items 5026... are adjusted to the Zieher system and due to their height of 12 resp. 24 cm can easily be combined with many Zieher buffet raisers (page 28).

All large steps are supplied in a sturdy wooden box!

"Stablo" – filigree versatility

The buffet stands made of solid, brightly polished stainless steel impress by their high-quality workmanship and delicate appearance. Bowls and dishes appear almost hovering while slip-proof caps on the feet ensure safe support. The height of the stand (item 8016.01) is adjustable via extensions from 80 cm to 120 cm. Massive and bulky buffet tables become virtually redundant!

The buffet stand with its integrated ring (item 8016.01), allows for the presentation of plates and platters (max. dia. 21 cm on the lower level), but also for the insertion of extravagant wine coolers made of borosilicate glass. The coolers, positioned at an angle, may also be used with the "Stablo" stands in the sizes M and L.

The shape of the cooler corresponds to the already well-known Zieher glass cloches (pages 173 to 176), thicker quality borosilicate glass ensures the necessary stability! Due to its shape, any condensing water on the outside is drained off to the bottom tip. Dripping water can easily be caught by placing a small bowl on the floor or the buffet table. The integration of the optionally available Zieher rechargeable LED-lights creates breathtaking visual effects and puts champagne but also iced food in the limelight!

A three-staged buffet etagere is offering a lot of space for all kinds of food. It can be equipped with numerous trays and plates of the Zieher range. Anti-slip caps avoid annoying noise and ensure the safe grip of the trays

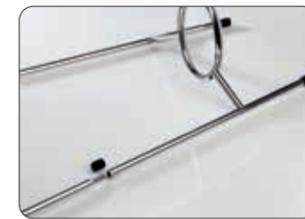

The etagere with suitable trays is available on pages 62 und 63.

wine cooler

borosilicate glass, transparent, handblown, handmade, reinforced version, for "Stablo" M, L items 8015.30 and 8015.40 (by positioning the cooler at an angle) and "Stablo" XL ring item 8016.01

Anti-slip sleeves provide a safe positioning of buffet platters.

"Falcon" - really detached!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet. A single one can bear up to three plates on its wings or, when used as a duo, fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters.

As a high-tea stand, the etagere carries plain white coup plates or matt-black plates with a slate-like structure. Those plates fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service. This majestic creature is sitting on a stylised branch, which also provides a firm stand.

More buffet platters made of laminated plastic and glass are available as of page 52.

Buffet bowls

Thermo bowls "Shine"

The stainless steel bowls of the "Shine" series are double-walled and therefore have an isolating effect. This helps to prevent water condensation - even at higher temperatures. Cold food stays cold and warm food stays warm longer.

The slim top edge appears elegant and filigree. The accentuated contrast between the highly polished outside and the unobtrusive finish on the inside (fine brushed stainless steel, ivory or taupe coloured) makes that series an eye-catcher. "Shine" is the perfect combination of elegance and subtlety. It is easily changeable to achieve a variation of presentations and it is effective due to its double-walled construction.

bowl "Shine"

Please note:

When cleaning the coated bowls (ivory and taupe coloured) in the dishwasher, the coating at the rim might abrade in the course of time. Therefore it is recommended to clean these items by hand.

"Splash"

The "Splash" - effect

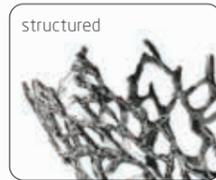

Dynamics of movement - solidified to a statue! The bowls of the "Splash" series spread a very special flair by their playful optics. Whether used as fruit bowl in the big, for amuse gueule, culinary delights in the small or as decorative deposit place in all varieties, "Splash" sets a charming course at the table and for interiors. The bowls are made of solid pewter, manually assembled of numerous single components and elaborately refined. Knobbed feet at the bottom side guarantee a safe stand.

Large numbers of single parts are casted from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork. The products of the "Reef" series are genuine gems of dining culture! Whether there are bowls filled with bread or fruit in the focus of attention, high-quality textiles, held together by extravagant napkin rings emphasising the ambiance, or the delightful shadow play of candlelight, creating an atmospheric ambiance - "Reef" turns any table into a fine dining experience.

In the lobby or at the reception desk, which are both a hotel's hallmark, these impressive bowls guarantee lasting impressions with guests and visitors, especially when decorated with blossoms or flower bouquets.

The outside texture of the bowls differs within the series: whether smoothly rounded (page 71 to 73) or roughly structured with dark, patinated deepening (page 70) - each variant has its own charm.

The projecting XXL bowl combines filigree structures with impressive dimensions. Made of premium pewter, countless fine ramifications combine to a beautifully designed whole and thus provide necessary stability with low weight at the same time.

This design gives an unobstructed view of the contents of the bowl and forms a precious frame to stage particularly fruit or other delicacies in an extravagant way. The surface of the bowl is polished on the inside, while on the outside it impresses with its coral-like structure.

smooth

Please note:

Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularity of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

"Roots, Matrix & Fakir" – Brass all of a piece!

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination. Opposing in form and shape but still belonging together, the bowls "Roots" and "Matrix" as well as the exceptional displays of the "Fakir" series, add up to a harmonic overall composition.

The bowls "Roots", a tight web of rootlike structures, and "Matrix", strictly geometrically constructed of hexagons, could hardly be more opposing. Especially this aspect makes the combination of the two so interesting. Besides the presentation of bread and fruit on the buffet, these bowls fascinate as sculptures or decorative elements as well. An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

"Fakir"

The buffet stands of the "Somnia" series are available on page 14.

Please note:

The items made of brass are suitable for cold/dry food only. Not dishwasher-safe.

"Fakir"

"Capiz"

The rechargeable LED-light item 8150 is available on page 49.

bowl "Capiz"

shell, ivory-coloured, oval, resin-coated, not dishwasher-safe

item	l x w x h in cm
7106.46	46.5x24x13.5

item	Ø in cm	height in cm
7112.36	36	17.5

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with crushed ice and the Zieher rechargeable LED-lights, the double-walled bowls produced in mosaic-look create fascinating effects, thus becoming the eye-catcher at the buffet. The double-walled construction provides insulating characteristics. This prevents the formation of condensation on the outside of the bowls to the greatest possible extent.

Separates ice and melt water

4810.01	approx. 38-40	approx. 9.5
4810.02	approx. 50-52	approx. 14

Please note:

Due to the complex production process, small air inclusions in the glass are inevitable.

Manufactured in old tradition!

Each of these high grade bowls is unique and almost completely handcrafted. At this, coloured glass is completely covered with crystal clear glass. This process awards the bowls with top brilliance and an impressive look. The handblown glass blank is modelled manually, whereby unique pieces are created which excite by their organic shape.

Platters and bowls made of grey glass

The gold-plated napkin ring "Reef" is available on page 72.

The buffet crosses "StiXXX" made of laminated plastic are available on page 41.

buffet bowl

glass, 8 mm thick, dark grey, round, structured, delivery in strengthened carton

item	Ø in cm	height in cm
5704	82	15

This monumental bowl made of dark grey glass arches like a sculpture and melts optically with crushed ice to stage classy seafood or champagne in an opulent way.

In combination with the Zieher rechargeable LEDs, which perfectly accentuate the irregular structure of the glass, the presentation becomes even more dramatic! This effect is further intensified by the optical refraction of the ice.

This impressive bowl with a diameter of 82 cm can be placed free-standing on the floor by using the fitting rack (item 8213). But also right at the buffet table or arranged together with the stands of the "Crossline" series in different heights - these designer pieces know how to impress.

"Cave"

The glass version of the "Cave" bowl is available in two sizes. The soft tinge of this grey glass, which is manufactured in a traditional hand-blowing process, at first glance allows an unobstructed view onto the content of these shapely objects. They offer the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad on a solemnly decorated table. The content of the bowls remains protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance. These unique items also enthuse as a place to keep all kinds of accessories. "Cave" in a smaller version, made of china, is available on page 163.

glass bowl "Cave"

dark grey, round, handblown

item	Ø in cm	opening Ø in cm	height in cm

4815.24	approx. 24	approx. 19	approx. 16.5

"Duplex"

The solid coloured grey glass of these unique handblown pieces serves as an unobtrusive background and suitable framework for perfectly arranged dishes. The bowls can be used on both sides. A soft recess is formed when the closed side is up for ambitious dishes. By using it upside down, there will be more capacity, which is ideal e. g. to fill in crushed ice.

Useable on both sides!

The rechargeable LED-light item 8150 is available on page 49.

glass bowl "Duplex"

4813.46	46	10

We recommend the use of silicone ring 4681.S with the smallest bowl item 4814.17

Please note:

All items shown on this pages are hand-blown. Therefore it is impossible to avoid variations in glass thickness, colour intensity and weight.

The handblown bowls made of grey-tinted glass are deliberately restrained in their design, yet they have been shaped to exhibit high versatility in their appearance.

The combination of the bowls with the gold-coloured stands of the "Somnia" series (page 14) creates an opulent and extravagant buffet staging, which is fascinating purely by its appearance. The subtle grey tinting of the glass bowls also matches perfectly with the matt black surface of the optionally available silicone rings, which form a non-slip basis and increase stability.

4682.W	white	3 pcs

The trays and bowls of the "Artisan" series are fascinating and diversified at the same time. The inside with its perfectly polished surface creates an interesting contrast to the matt outside.

The handcrafted rim impresses by its irregularity and is crowned by a circumferential brass edge. The combination of hammered and plain surfaces, of massive stainless steel and brass, awards this series with that certain something.

"Artisan" is a series of contrast

The plane surface of the trays facilitates the service and prevents unpleasant noise. When used at the buffet, arranged food can be presented in an appealing way and is accentuated by the reflection of the polished surfaces.

Please note:  When cleaning in the dishwasher, the brass rim may change its colour in the course of time. Therefore it is recommended to clean these items by hand.

Stainless steel - refined!

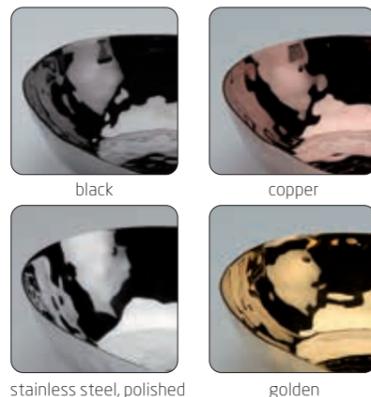

All information concerning refinement of glass and china are available on pages 146 and 300.

We gladly offer you buffet displays, bread baskets or cruet stands etc. with different surfaces. This option is feasible for almost all products made of stainless steel. Highly polished as well as matt stainless steel can be finished in golden, copper or black colour using the PVD process. Price, minimum order quantity and delivery time upon request.

Please ask us, we will gladly prepare an individual offer for you.

stainless steel, polished

golden

Advantages of the PVD coating:

- Food-safe
- Dishwasher-safe
- Better strength and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to PVD refining, this coating is not dishwasher-safe.

We will be delighted to advise you!

"Medusa"

"Medusa" - risen from the deep-sea

These organically shaped bowls appear like creatures of the sea which float silently through the depth of the ocean. Even if the tentacles, modelled in numerous processing steps, appear very filigree, they still provide a safe base. Despite the solid stainless steel, these hammered bowls award a natural airiness and an almost floating impression.

"Medusa" offers the perfect setting for all sorts of seafood or extravagantly presented salads and desserts. Even as a decorative storage space, these bowls cut a good figure.

Etagere "DressCoat"

Food: Pâtisserie Walter
www.patisserie.de

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. The supporting rings with a diameter of 15 cm offer the possibility to insert not only plates and platters, but alternatively also bowls. Small black silicone rings keep inserted porcelain in position and prevent annoying clattering.

A very special aesthetic setup can be arranged by using a combination of several etageres along with the biggest plate of the "DressCoat" series (page 156). Numerous presentation areas on a total of four different levels can be created by placing additional plates directly on the table. The diameter of 22 cm is more than sufficient to put different pralines, petit fours and other creations of confectionery into the limelight in an impressive way. In connection with the almost invisible tier stands, the porcelain tablecloths appear amazingly airy and playful by their floating look-and-feel. A buffet presentation with an elegant vibrancy, caused by the drapery of the "DressCoat" plates – that's where it comes into its own.

etagere "DressCoat"

2208.25	71	25

"Flower-Tree" - A tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies. Also a selection of jam in handy jars can be presented in an appealing way as well as fresh apples which, placed on the leaves, invite to take one. These masterpieces of craftsmanship also accentuate the beauty of each lobby by its decorative character.

The shape of the leaves is based on the already existing plateau plates and "Flower-Tower" etageres (page 99 and 100). Especially on the buffet, this opens up the option to arrange the buffet installations diversified, but nevertheless harmoniously and variable.

The plateau plates are available on page 100.

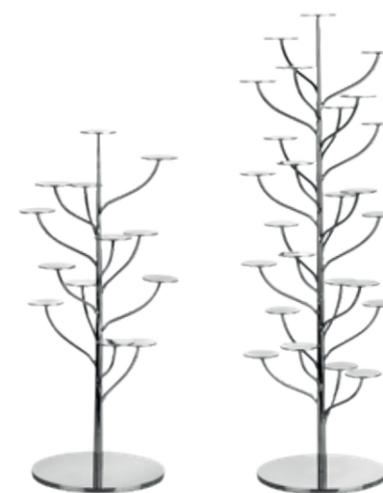

"Flex-Tree"

Anti-slip pads made of Silicone are available on page 214.

The "Flex-Tree" enthuses by its versatility! On these trees, plain discs replace the fixed leaves. With a diameter of 5.5 cm, they offer sufficient space to equip the tree either with glass, porcelain or stainless steel miniatures.

To be on the safe side, they can be placed on black or white anti-slip silicone pads. This reduces the sound emission and at the same time increases the stability of the used miniatures. All trees are made of massive stainless steel and are accurately high gloss polished. The 8 mm thick foot is the perfect base and guarantees a safe stand.

"Table-Tree" - Tempting variety on the buffet

For the presentation of filigree delicacies in the smallest of spaces, the new "Table-Trees" from Zieher offer numerous possibilities for a stylish staging.

The trees can also be used on the buffet and are a beautiful supplement to the larger exemplars of the "Flower-Tree" and „Flex-Tree" family (pages 96/97).

A selection of fruit, chocolates or patisserie can be presented on the six organically shaped petals of the "Table-Tree" Flower. For surprising moments, the "Table-Tree" Pin offers the possibility of presenting finger food or small snacks on six skewers at different heights. Melon with ham, dates wrapped in bacon or tastefully filled parmesan baskets and edible flowers find an attractive place on the elegant branches. Each delicacy is held securely by an artfully shaped spiral and prevented from slipping.

The 30 cm high "Table-Trees" are made entirely of stainless steel by hand and polished to a high gloss.

The solid base forms the basis of these filigree products and ensures a secure stand.

Floral shapes in a steely gloss!

Seemingly organic shapes in an interplay with the gloss and reflections of hammered and polished stainless steel make up the special charm of this product line. Different etageres and plateau plates (page 100) allow a visually harmonious yet flexible and diversified presentation of appetizers or desserts on the buffet.

But also finger food, petit-fours, elaborately decorated cup cakes or a selection of chocolates in the guest room will find a convenient stage on these products. The ice cream/sorbet cups and petit-fours stands in various sizes make a nice complement and individually stage appetizers or a dessert.

The formal base for all products is a slightly arched and kidney-shaped miniature plate.

On three levels, the buffet etagere combines seven small plates each to a presentation platform of floral appearance and offers space to present up to 21 delicacies in a compact and stylish way. The single levels are supported by a filigree trestle made of massive stainless steel, which in shape and construction, deliberately readopts the design of other Zieher etageres. So nothing gets in the way of a harmonic combination of the different product lines.

The table etagere consists of one level only and is therefore perfectly suitable for the restaurant service to present intermediate courses, antipasti or dessert variations. This product is the ideal choice - even as a stylish storage dish for different types of fruit or accessories of daily use.

The massive marble platter with its 24 holes forms a stable base for various uses. Whether coil shaped holders made of porcelain and glass, skewers made of high-gloss polished stainless steel or presentation platforms in different heights – the skewer platter from Zieher offers numerous options to present small delicacies in an appealing way.

More skewers and plates are available on pages 230 and 231. Please note the details of natural stone on page 231.

Elegantly served and presented in style - classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres with three levels are available in two sizes. Petit-fours, desserts, chocolates or other delicacies are effectively presented by the classic mini format etageres. The larger version is perfectly suitable for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table. Matching inserts made of porcelain, glass or stainless steel can be found on pages 254 and 255.

"Fingerfood-Tree"

Equipped with rings size M, the fingerfood-tree is perfectly suitable for presenting portion jam in conical glasses, e.g. Bonne Maman.

Design: Jochen Gromann

Increased stability through larger base plate.

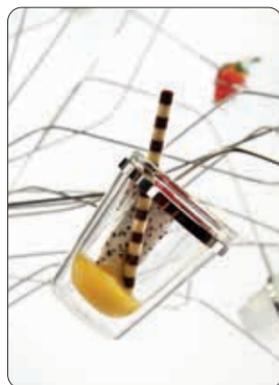

Please note:

The trees are being delivered with unbent branches; the bending has to be arranged before the first use!

The branches are made of stainless steel and will sag when loaded with food. This is why the branches should not be bent too far down when empty. In order to obtain a more favourable result, it is recommended to bend the branches one by one and to work in a circle from the outside to the inside.

The different attachments can be screwed onto the end of the branches, whereas the connection point should only be tightened up slightly. When using the rings or spiral supports, it is recommended to leave the connection point open by about half a turn, as they will turn into the apt position by themselves due to the weight of the attachments

"Fingerfood-Tree"

Wildly bent tree branches, supported by a base made of polished stainless steel: The fingerfood-trees by Zieher are absolutely delightful due to their extraordinary look and variable uses achieved by the different attachments!

A number of suitable attachments and applications offer a lot of possibilities and form the basis for the chef's imagination. The fingerfood-trees are perfect for patisserie creations, savory snacks in the form of mini-wraps or skewers, fruit with chocolate icing or just for jam at breakfast buffets. Furthermore, they can be placed on both buffets and bar tables with the solid base ensuring stability.

This extraordinary way of presenting fingerfood will surprise and fascinate your guests and will definitely leave a lasting impression.

The fingerfood-trees are furnished with 30 branches, which in turn can be fitted with 5 suitable attachments (page 108). Besides a clip that holds wooden skewers and a spiral for small wraps and waffles, we offer rings in three sizes, of which the medium size is especially designed for holding small conical jam jars (e.g. Bonne Maman).

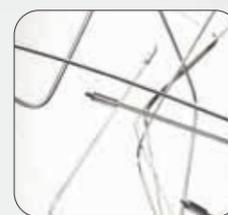

Velcro straps to fasten the branches and a stout carrier bag are available from the accessory section and allow easy transport and space-saving storage of the bent trees.

The "Mercato" buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cutouts offer numerous advantages. "Mercato" can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (pages 50 to 57) can simply be laid on or pushed into the lateral cutouts of the baskets (max. width 21 or 34 cm). In addition to the mere presentation of fruit or baked goods, "Mercato" is also ideal for the coffee break or for placing miniatures of any kind.

The integrated rubber feet ensure safe standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation.

The "Solid" bed tray is a nice addition to this system. Due to its integrated foldable feet, there is no need for displays for elevated positioning. For more information on the bed tray, please see page 122, for the fitting "Solid" breakfast buffet, please check pages 116 to 121.

Integrated rubber feet guarantee stackability and safe standing.

The lateral cut-outs are suitable for buffet platters with a max. width of 21 or 34 cm.

buffet display/basket "Mercato"

“Solid”

The high-quality cutting board made of fine end grain walnut wood is much more than a shapely and elegant kitchen aid. This product only unfolds its full potential in connection with the respective stacking rings and bowls. All parts have a groove at the top, which allows quick and easy stacking of the various items, even in mixed arrangement.

The milled groove of the cutting board serves on the one hand as a juice groove, on the other hand as a receptacle for various glass cloches. Thus aromatic types of cheese can be presented. A classic cloche made of handblown glass or an extravagant organically shaped cover made of highly durable borosilicate glass protects and stages the food at the same time. The stacking ring creates different levels of presentation when used in a clustered arrangement of cutting boards and trays. Also, the capacity of the bowls can be increased so as to present, for example, long baguettes.

Accurately fitting connection plates made of hardened, white or black coloured glass, can be slid exactly into the grooves of the stacked rings and thus work as buffet platters between the columns. This creates additional space and raises the flexibility of this system at the same time. Additional sizes of these plates, made of the same type of glass (page 54/55), offer a nice supplementation and allow an optically balanced buffet presentation.

The system blends in harmoniously into the walnut wood series “Solid”. Using further sizes of the glass cloches allow impressive arrangements on the buffet. Cutting board, ring and bowl are sealed with high quality oils. Especially regarding the cutting board, this enables the simple refurbishment of the surface from traces of daily wear and tear.

Cloches made of borosilicate glass are heat resistant, dishwasher-safe and very easy to handle for the guests. The main features of this material are a great resistance against heat and changes in temperature as well as a high breaking strength. Each item is manufactured by hand and therefore shaped individually.

item	l x w x h in cm
4747	46.8x12x54.5

Suitable miniatures in sizes 5 cm x 5 cm or 7 cm x 7 cm are available on pages 265 and 266.

Bread and more – attractively presented!

The presentation of bread is not only important at the table, but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for one or two wooden trays allow for a clear arrangement of various types of bread. With the help of a connector piece, two of these tray displays (item 4746) may be stacked and used on top of each other - the ideal solution for small buffet tables. A fitting cutting board including a crumb drawer and an exchangeable grate, a cutting board made of end grain wood as well as various bridges (to be found on pages 120 and 121) complete the series and provide the healthy and diversified breakfast with a new look.

Besides the flat bread tray you can also find a deeper version of this tray, which is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions (for the tray) offer space for several miniatures (pages 265 and 266) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item

Please note:

Items made of walnut wood are not dishwasher-safe.

More items of the "Solid" walnut series are available on pages 234 to 245.

The miniatures made of glass and china are available on pages 265 and 266.

Show cooking is a popular trend!

Whether using it for catering, at events or at the hotel's own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both cutting boards and bridges have been chosen in such a way, that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

"Solid" is entirely made of walnut, probably one of the most beautiful and most stylish woods.

More items from this series can be found on pages 234 to 245.

Please note:

The Zieher cutting boards are oiled. The use naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface. The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.

Stackable in all usual transport boxes with a size of 60 cm x 40 cm (e. g. meat box, height approx. 20 cm)

bed tray "Solid"

walnut, food-safe sealed, not dishwasher-safe, stackable, with feet, 2 handles, recessed on one side of the rim

item	l x w x h in cm (closed)	l x w x h in cm (set up)
4773	60x40x6.5	74x40x31

The rubber feet are set back from the rim to enable the transport in a tray trolley in 1/1 EN-format (60 cm x 40 cm).

The room service tray as well as the bed tray with feet stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The tray also cuts a good figure on the buffet. The positioning feet make it possible to dispense with the use of displays for heightened placing. A speedy setup and flexible handling facilitate daily operations.

room service tray "Solid"

walnut, food-safe sealed, not dishwasher-safe, stackable, recessed on one side of the rim, with 2 handles, with 4 rubber feet, suitable for tray stand "Solid" item 4748

"Podia"

Hotel cosmetics: PAM Berlin Slipper & Hotel Supplies
www.pam-berlin.de

The buffet bridges and trays of the "Podia" series offer several advantages!

They are light but robust, flexibly usable and can be stored in a space-saving way. With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - "Podia" offers multiple possibilities for use and flexible handling!

The tray in 1/2 GN format is especially suitable for different miniatures made of porcelain and glass. Slide-proof silicone coasters in different styles (page 214) guarantee a good grip during service.

All parts of this series consist of form-glued authentic wood veneer. The bridges are available in two types of wood. The light version harmonises very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

Please note:

Not dishwasher-safe!
Do not immerse in water!

More products from the room service/hotel room field are available as of page 275.

"Bento Box" - flexible mobility

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for service staff. The "Bento Box" from Zieher has been designed especially for these requirements - all components are stackable. This way, they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Matt black melamine, modern design and subtle contrasts created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The box is divided into a main compartment for plates up to a diameter of 28 cm and a narrow side compartment for cutlery and napkin or miniatures made of glass and porcelain.

Optionally available inserts in the same design create additional space for side dishes, sauces or dips, when placed above the cutlery compartment. Up to four of these boxes can be placed in a bento box if required, and, with a correspondingly flat content of the main compartment, create a second level for even more flexibility.

The versatility of the individual components also becomes evident in the cover, which has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

Box, insert box and lid are sold separately and can be combined as desired. This allows the restaurateur the adaption to his individual needs and helps to optimise additional purchases.

Bento Box

melamine, black, surface matt, stackable, food-safe, dishwasher-safe, not suitable for microwave and combi steam oven, partition for cutlery/napkin/inserts (28 cm x 7.5 cm) or for platters (28 cm x 28 cm)

item	l x w x h in cm
4578	39x30.5x8.5

Suitable inserts made of glass and china (7 cm x 7 cm) are available on page 266.

Please note:

Items made of melamine are not to be used for cooking in microwave and combi steam oven!

- Dishwasher-safe
- Food-safe
- Odourless
- Easy-care
- Modern design with matt-black surface

Real added value is provided by different boxes made from the same material. They are available as an insert for the bento box (page 129) and as a cutlery box in two sizes. In addition, three smaller variants have been developed, paying particular attention to the greatest possible compatibility with the trays. The boxes can be arranged in a variety of combinations on all melamine trays and thus offer enormous potential for a use at the Flying Buffet, in catering, at the bar or at the breakfast buffet. A selection of suitable combinations is available on the following pages.

The sturdy containers can also be used as plain elevations for platters and trays. Without additional efforts in procuring material, it is possible to arrange varied buffet presentations quickly and easily. Additionally available are different versions with three round or oval cavities. A big selection of suitable inserts made of glass or porcelain is available on page 268 and 269.

The spoon rest made of melamine is available on page 134, suitable spoons and skewers on pages 140 and 141.

Robust and elegant - melamine!

The advantages of melamine, such as dishwasher-resistance and food-safety, are particularly evident in daily catering use.

The matt black surface of the Zieher melamine articles generates a superb contrast to glass and porcelain and impresses by its pleasant haptics.

Modern design and the simple language of form of the trays, which are available in common GN formats, make up a pleasant addition to the articles of the "Modul" series (page 140/141). The bridges and spoon rests (page 138) can be used on all trays, non-skid rubber feet on the bottom side facilitate the service enormously.

Further trays made of walnut are available on pages 110 to 123.

All information about the serving tray “Solid” are available on page 280.

The cutlery boxes item 4720 (wood) and 4594 (melamine) are stackable in all commercial transport boxes in format 60 cm x 40 cm

"Modul" – walnut

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in everyday use.

The party spoon items 1938... are available on page 140.

base tray "Modul"

walnut, food-safe sealed, not dishwasher-safe, stackable

Please note:

Items made of walnut wood are not dishwasher-safe, do not immerse in water!

Suitable inserts for the bridge "Modul" are available on page 142.

"Modul" – walnut

"Modul" is a flexible product ready for "Flying Buffet" service - and therefore ideally suited for use in the catering area. The slim, oblong format of the base tray, which is available in three sizes, renders the often cumbersome service at crowded standing receptions barrier-free and uncomplicated. The trays can be variably fitted with glass or porcelain parts, a bridge for glasses or a spoon bench for 4 spoons. When using two spoon benches, 4 long skewers can be placed safely on top.

Every single piece has been specially developed for this catering system. Trays, bridge and spoon rest are available in 2 variations: The series "Modul" is manufactured from solid walnut wood and from melamine in a modern matt-black design (pages 130 131, 138 and 139). Suitable miniatures made of china and glass (pages 140 to 142) can be fitted to all trays! Shapely anti-slip mats made of silicone (page 143) facilitate catering to a great extent.

The buffet stands "Antique" are available on page 46. More items made of walnut are available on pages 110 to 125 and 234 to 245.

“Modul” – melamine

The advantages of melamine are manifold. It is dishwasher-safe and food-safe, which becomes evident in daily catering use! The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and modern appearance.

base tray “Modul”

melamine, black, surface matt, food-safe, dishwasher-safe, not suitable for microwave and combi steam oven

item	l x w x h in cm	PU

Non-slip covers in matt black: Classy look - great benefit!

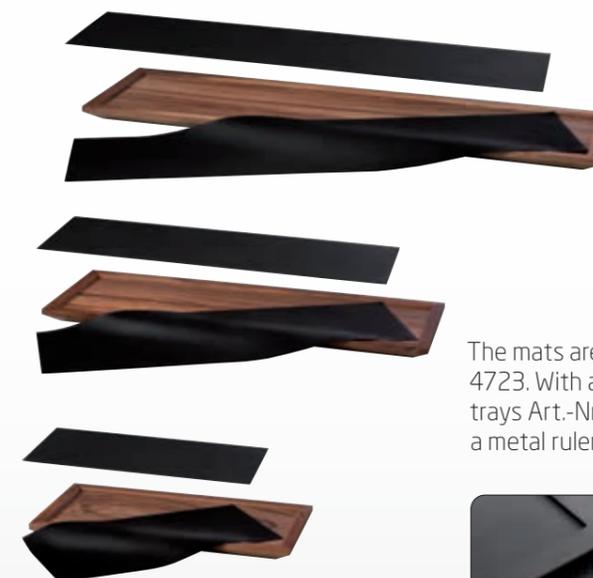

The matt black look and velvety texture of these mats create an interesting contrast when used in connection with the trays made of walnut. In combination with the "Modul" melamine trays they become almost invisible.

The mats made of food-safe silicone are extremely skid-proof and facilitate the serving considerably. No clattering, no shifting of porcelain bothers guests and staff!

To clean the mats, please use a moist cloth with some detergent and wipe off with a cloth and clear water.

Non-slip coasters for single miniatures are available on page 214.

The mats are made to match the size of the walnut trays Art.-Nr. 4721, 4722 and 4723. With a sharp cutter knife, they can be adapted to the size of the melamine trays Art.-Nr. 4581, 4582 and 4583. We recommend to use a cutting mat as well as a metal ruler.

non-slip mat
silicone, black, food-safe, temperature resistant (-40 °C - +230 °C), for walnut trays "Modul" items 4721, 4722 and 4723, can be cut to fit melamine trays "Modul" items 4581, 4582 and 4583

VENTA by Büchin Design has developed an elegant buffet furniture programme for the high demands of the hotel industry and for exclusive events. It is equipped with a number of technical features to keep food hot or cold.

The tables are equipped with castors and can therefore be used very flexible in different rooms. They can be stored under each other or dismantled and stored in trolleys in just a few simple steps.

Zieher and VENTA cooperate in the area of buffet presentation. The Zieher table-top buffet elements harmonize excellently with the modular buffet system "STAGE" of the VENTA brand.

MODULAR BUFFET SYSTEM

- Adjustable heights
- Movable castors
- Nesting storage
- Trolley Transport System

total buffet length: 536 cm

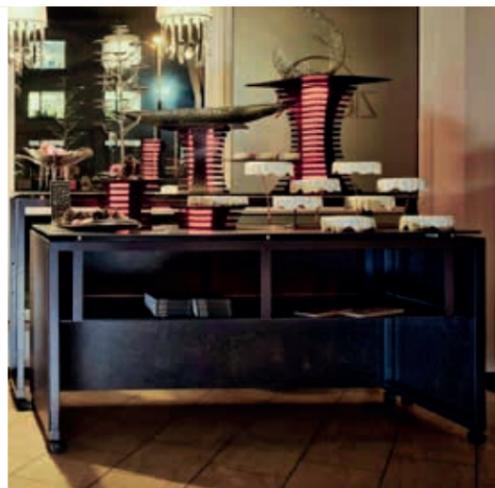

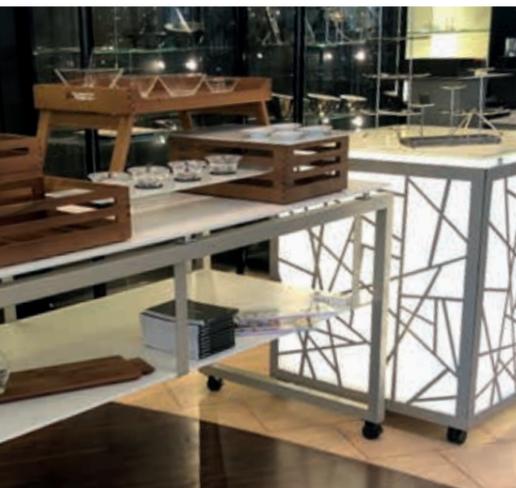

all tables in a row / adjusted at the same height

The modular buffet table system STAGE can be assembled and disassembled in just a few easy steps, without the need for any tools.

All four tables fit in one trolley. The individual parts are safely stored, each part has its own place.

Making precious materials more precious – whether it is ...

"platin"

"gold"

"bronze"

... glass or china: nearly everything is possible!

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result, the coating is dishwasher-safe. Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys, we obtain a connection to the varnish, which is strong enough for the products to become dishwasher-safe. Test series by the "Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG" have proven the dishwasher resistance of the décor. Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility.

The bronze colour is a special case since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones, which blend into each other and create unique effects. Specific patterns/orders are usually executed quickly. Please do not hesitate to send us your special request

Satin-coated logos applied before the refinement still remain visible.

colour gradient "bronze"

All information of refining stainless steel are available on page 301.

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents to avoid damage.

Since the coatings are made of precious metals, the use in microwaves is not recommended under any circumstances

i Due to the special glaze, irregularities such as running marks or inclusions can appear on the underside of the items. These deliberately contribute to the organic, rustic charm of the items and are unavoidable.

"Sombre" - dark accents!

The "Sombre" series combines the robustness of porcelain with the individual charm of unique pieces made of ceramic.

The deep dark hue of the matt glaze deliberately focuses on subtle irregularities and puts the served dishes into the centre of attention. The organic shape creates a subtle tension. It fits into any environment without losing its individuality. In combination with other series and materials, it becomes possible to set new accents ever and anon.

Particularly resistant hard-paste porcelain enables the production of comparatively thin and filigree parts, which are provided with an intensely matt black glaze. The five-part small series consists of three flat and one deep plate as well as a bowl for side dishes or salads.

The glass series VISION is available on pages 184 to 187.

The glasses of the VISION series are available on page 181.

Due to the reduced waves, the version made of grey glass offers significantly more space for staging dishes. A stylish extension for more creative latitude!

Glass cloches in different sizes are available on page 173.

"Pulsar" - Sparking Impulses!

This gourmet plate, predestined for appetizers, intermediate courses or desserts, excels through its exceptional shape and thrills the beholder by the exotic touch it has been awarded by its designers.

The surface is reminiscent of the playful waves created on a smooth lake after a stone's throw. The viewer's gaze purposefully wanders to the centre of the concentric design and this way, the served dishes come straight to the fore. Be it for selectively arranged sauces or dips, crunchy crisp caramelised nuts or edible flowers, even the wave troughs of the plate's rim offer numerous possibilities to stage dishes effectively. "Pulsar" is made of high-quality hard porcelain in a surprisingly soft composition and is available glazed in glossy white or in matt black.

The fitting cloches are based on the extraordinary design of the "Nostalgic" glasses from the VISION series. The language of design of the wine glasses recurs in the cloches that are mouth-blown as well - the perfect combination for a balanced and harmonic staging on the table. These exclusive covers are available in two sizes: The small version precisely spans the inner circle, the bigger one additionally covers the first wave.

Design: Michael Schwarz Müller

Borosilicate glass in its most beautiful shape!

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/bowls are available in three sizes, the inspiration for their shaping was derived from the nut of the oak tree. The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both sides. When used as a plateau plate, the dish moves closer to the guest. Used as a bowl, it offers space for gravies, sauces and more while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time.

If the item is used upside down as a plate, the two rings on the plate's underside can be used to separate the prepared dish into different sections, the cloches of the "Cuspis" series may also be used with it (4940.10 on the inner ring, 4940.25 on the outer ring).

"Donna"

Platters and chargers made of hardened black glass are available on page 54.

The elegant porcelain-pillows "Donna", which are inspired by a woman's curved back, are definitely not made to sleep on, but offer an ideal presentation area for high-end dishes or present a sculptural place to keep various items of everyday life. The glass cushion also cuts a fine figure when used as a soap dish. The larger version made of porcelain sets the scene for every dish in a surprising way and forms an exciting contrast to conventional porcelain shapes.

The etagere 2212.30 is available on page 94.

Food: Pâtisserie Walter (www.patisserie.de)

“DressCoat” was created by the glass and porcelain designer Nadine Podewski. The elegant language of design is reminiscent of set tables, the creation of the plates and bowls respectively is characterised by the apparently free falling drapery of table cloth. This creates a seemingly weightless, almost floating effect. The slightly concave shaped surface offers space for artfully decorated dishes and reliably avoids the sloshing of sauce.

“DressCoat” is available in four different sizes. Besides the main application as a plateau plate, each item can also be used as a bowl. The falling folds add up to an exciting game of shapes - in particular if used as a bowl.

With “DressCoat” you will dish up delicacies!

Design: Nadine Podewski

"Collina"

Design: Wilma Greim

"Collina" provides almost unlimited possibilities. Whether in the lobby or on the buffet, for the presentation of fruit and pastry or as an exclusively decorative element, this series is versatile. "Collina" is perfectly suitable for various antipasti and delicacies from the patisserie, but also a selection of fruit in the Hotel room can be beautifully put in the limelight.

The possibilities when considering private use are numerous, too. "Collina" may be used as a fruit bowl, but it is also suitable as a means to neatly organise objects of everyday life, such as the mobile phone or keys.

In order to protect the sensitive surfaces of furniture, every plate comes with feet made of rubber, which can be stuck on if needed. The rigorously geometrical structure permits the assembling of several plates, which allows to enlarge the effective area of the platters in both length and width. When looking at the surface from the side, the arrangement has the appearance of a desert landscape arbitrarily formed by the wind.

"oro79" is pure luxury

This exclusive miniseries captivates by its extraordinary surface with its golden mother-of-pearl look. A quartered ball allows serving a variety of food in an entirely new way.

"oro79" offers exceptional service for the most demanding guests!

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With Zieher's two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black respectively white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used.

bowl "Cave"

biscuit china, white, inside glazed, opening: Ø approx. 8 cm, in black gift box

item	Ø in cm	height in cm	PU
4375.01PB	approx. 11	7	1 pc

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight, this porcelain piece only partly reveals its interior. "Cave" consists of intricately worked hard porcelain and captures by its soft shape and the velvety haptics of the unglazed outside. Touching the cave-shaped bowl, it feels almost like a palm stone made of white gold, having a soft appearance with delicious contents. "Cave" is predestined for an use at cocktail and hors d'oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and perfectly fits in the palm of the hand.

The glass version of the "Cave" bowl is available in two sizes. The soft tinge of this grey glass, which is manufactured in a traditional hand-blowing process, stages the content of these shapely objects. They offer the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad on a solemnly decorated table. The content of the bowls remains protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance. These unique items also enthuse as a place to keep all kinds of accessories.

5182.21	21/8	approx. 2.0	4 pcs
5182.27	26.5/8	approx. 2.75	4 pcs

The plates and bowls of the "Unique" series are made of clear glass, which is awarded an inimitable character by adding white glass components. This creates individual streaks and swirls, which assemble to highly exciting patterns. The underside of the plates as well as the outside of the bowls are blasted, which results in satined optics and pleasant haptics.

"Unique" presents - in shape and decor - a real counterpart to the uniform character of industrially manufactured mass products and proves to be as unique as its users.

"Unique" is produced in centrifugal casting. Besides the individual decor, this production method entails a slight variation of size, strength and shape of the items, also some air inclusions are possible. That's exactly what awards these unique pieces their special charm.

item	Ø in cm
5190	31.5

The glass cloches, which are available in 6 sizes (diameters 9 cm to 30 cm), delight by their high quality and unusual form! The presentation of fine truffles, an exclusive choice of cheese or simply a single praline - there is a fitting size for each purpose!

The lightweight cloches by Zieher are heat resistant, dishwasher safe and very easy to handle for the guests. Each item is manufactured by hand and therefore shaped individually.

The raw material for these items is borosilicate glass, which is mainly used for laboratory dishes. Its main features are a great resistance against heat and changes in temperature as well as a high break resistance. A wine cooler of the same design is available on page 60/61.

The cheese presentation system "Solid" is available on pages 112 and 113.

"Cuspis"

The cloches and porcelain coasters of the series "Cuspis" are inspired by the nuts of the oak tree. The ball-shaped handle at the tip of the cloches allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain coasters with its distinctive texture is reminiscent of acorn caps. The coaster can be used on both sides. When used as a plateau plate, the dishes move closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight. Used as a bowl, it offers space for gravies, sauces and more

glass cloche "Cuspis"

Each cloche is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 175), these items are made of a massive glass drop. Therefore air inclusions and minor streaks cannot be avoided completely. Each cloche is unique, the result is a harmonic enlivenment of the buffet for an attractive price

Example of application: Presentation of a premium beer type

These items are handblown and handcrafted. Minor size tolerances are normal and inevitable!

Feedbacks to the wine glass series VISION

Andrea Zigrossi, Italy

"I can say that my first encounter with Zieher glasses was "love at first taste". Finding glasses that enhance the tasting experience to the maximum is not easy, and the VISION Series succeeds in full! Thanks to the unique design and the lightweight material, the wine is excellently expressed making the tasting flawless."

Annika Hohmann, Germany

"Special about the VISION series is that we are talking about character glasses. We approach the wine individually through the glass and thus receive a much more intense experience of pleasure. The glasses are not only eye-catching but also enrich our palate."

Thomas Dötzer, Germany

"From the very beginning, we have been excited by the appearance and the design of the glasses. But after the first degustation, we have been enthusiastic! We did not want to stop tasting. The wine simply gains a different character. The BALANCED glass makes decanting superfluous - and a Grappa out of the RICH glass is simply a great experience!"

Günter Seeger, USA

"My whole team and I myself are convinced that the beautiful glasses of the VISION series establish a new league of wine glasses. We also receive a lot of positive feedback from our guests."

Rasmus Christensen, Denmark

"The VISION series have a remarkable ability to bundle the fragrance, while providing an elegant and aesthetic appearance."

Walid Romaya, USA

"As a wine influencer, I have tasted thousands of wines in all glass shapes and sizes. The INTENSE wine glass is the perfect balance of beauty and functionality. It is a piece of art in your hand, that delivers and intensifies the wine aromas and characteristics through its unique and beautiful bulbous base. When using the glass for wine tastings in bars, people literally flooded me with comments about its beauty. Simply spectacular and one of the best wine glasses I have ever tasted with."

Emanuele Trono, Italy

"My experiences with the Zieher VISION series have been outstanding. The glasses praise the wine, they are extremely light, give expressiveness to the wine and are also a beautiful design object. They are a must-have for every wine lover and I also became Zieher-addicted."

Daniel Bayer, Germany

"With their VISION series, Zieher managed to design innovative wine glasses, which lift wine tasting to a completely new level. I'm thrilled and can recommend explicitly their glass INTENSE for opulent wines. It stages particularly the German Riesling."

bar & more

The vision of simplicity

No distinction is made between red wine or white wine glasses in this collection - the glasses are simply theme-based or character-based. The names of the glasses FRESH, STRAIGHT, INTENSE, BALANCED, RICH, NOSTALGIC and SIDE clearly explain what they are used for: You intuitively reach for the glass, which in the best way presents the flavours of the wine you particularly wish to emphasise. If you want a powerful wine to be more harmonious or a touch more lively and fresh, you pick the glass with the designation, that mirrors your requirement best.

VISION

„You have never seen wine like this!“

Silvio Nitzsche, WEIN | KULTUR | BAR Dresden

SIDE

NOSTALGIC

RICH

STRAIGHT

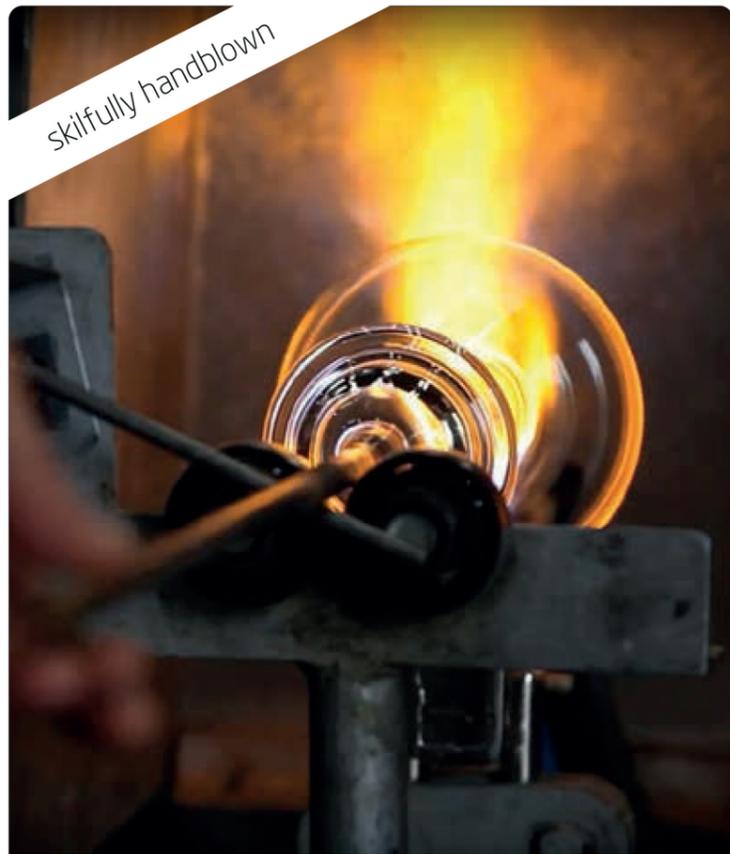

FRESH

BALANCED

INTENSE

Skilfully handblown

You have never seen wine like this!

Silvio Nitzsche, WEIN | KULTUR | BAR Dresden

Silvio Nitzsche

"Of course, there is life without wine, but who wants that?"

During his career as a sommelier, which has spanned more than twenty years, Silvio Nitzsche has looked after both guests and wine in some of the best Michelin-starred restaurants.

Some of his high-profile positions have been:

- Sommelier at "Dieter Müller Restaurant" (19.5 GM, *** Michelin), Bergisch Gladbach / GER
- Sommelier at "Erna's Elderberry House", Oakhurst / CA, USA
- Assistant Restaurant Manager and Sommelier at "Speisemeisterei" Restaurant (18 GM, ** Michelin), Stuttgart / GER
- Management of the wine retail and wholesale company Kierdorfwein

Silvio Nitzsche has now found a new home in the city of Dresden, where he has worked as a sommelier for over ten years at WEIN | KULTUR | BAR, which he opened there. He and his team have managed to establish a wine bar that many wine enthusiasts consider to be one of the best in Europe. He has succeeded in creating a place where wine is a permanent feature.

In his professional life, he has won almost every recognition and award for his work and his company. In 2018, Silvio was voted one of the ten best sommeliers in Germany by "Der Feinschmecker" magazine. Most recently, he was named "Sommelier of the Year" by Falstaff magazine.

VISION

Filigree craftsmanship meets innovative design

"Zieher glasses are all about top quality craftsmanship, which is created in one of the most innovative and best glass-blowing workshops in the world.

Each glass is unique and has been created from lead-free crystalline glass, using a traditional glass-blowing method.

As well as having a perfect, highly sophisticated and fascinating design, the glasses in the VISION range are guaranteed to provide maximum aroma and optimum development of the wine.

However, it is particularly the fascination of the light, the colours and the visual depth, that makes it impossible to tear your eyes away from the glass, because: You have never seen wine like this!"

Silvio Nitzsche

For further information about the VISION series, philosophy and a far-reaching analysis of sommelier Silvio Nitzsche, please visit

FRESH

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.01	8/24	approx. 340	2 pcs
5480.01-1	8/24	approx. 340	1 pc

For extremely fresh white wines, Prosecco or any variety of sparkling wine, light rosé wines

The wide opening of this glass allows the carbon dioxide in sparkling wines to gently evaporate. This prevents the aroma perception of the nose from being broadsided by a concentration of carbon dioxide, which is often the case with classic sparkling wine glasses. The glass provides the palate with a centralised aroma concentration, which allows the wine to express its exquisitely lively, refreshing and light character. The development of the flavour-carrying, freshly acidic structures is encouraged, and individual features of the bouquet are brought into focus.

STRAIGHT

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.02	9/27	approx. 540	2 pcs
5480.02-1	9/27	approx. 540	1 pc

For pure grape varieties and fruity / aromatic red and white wines

The characteristics of the wine are reflected harmoniously one-to-one in this glass. The authenticity of the aroma culture of a grape variety is made discernible and presented in an unpretentious way, which makes this glass particularly suitable for all types of authentic grape varieties such as Riesling or Sauvignon Blanc. Light, aromatic red wines are transformed into pure drinking enjoyment.

INTENSE

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.03	10.5/28	approx. 640	2 pcs
5480.03-1	10.5/28	approx. 640	1 pc

For opulent, great growth, powerful white and red wines, rustic, acidic white and red wines, young and middle aged Bordeaux wines

The tapering neck of this glass intensifies the aroma molecules, which are positively hurled out of the glass. The acidity is harmoniously structured in the fruit bouquet and completes the opulent overall sensation of strength. The glass provides intensive oxidation, making it ideal for any wine that can be decanted or served in carafes.

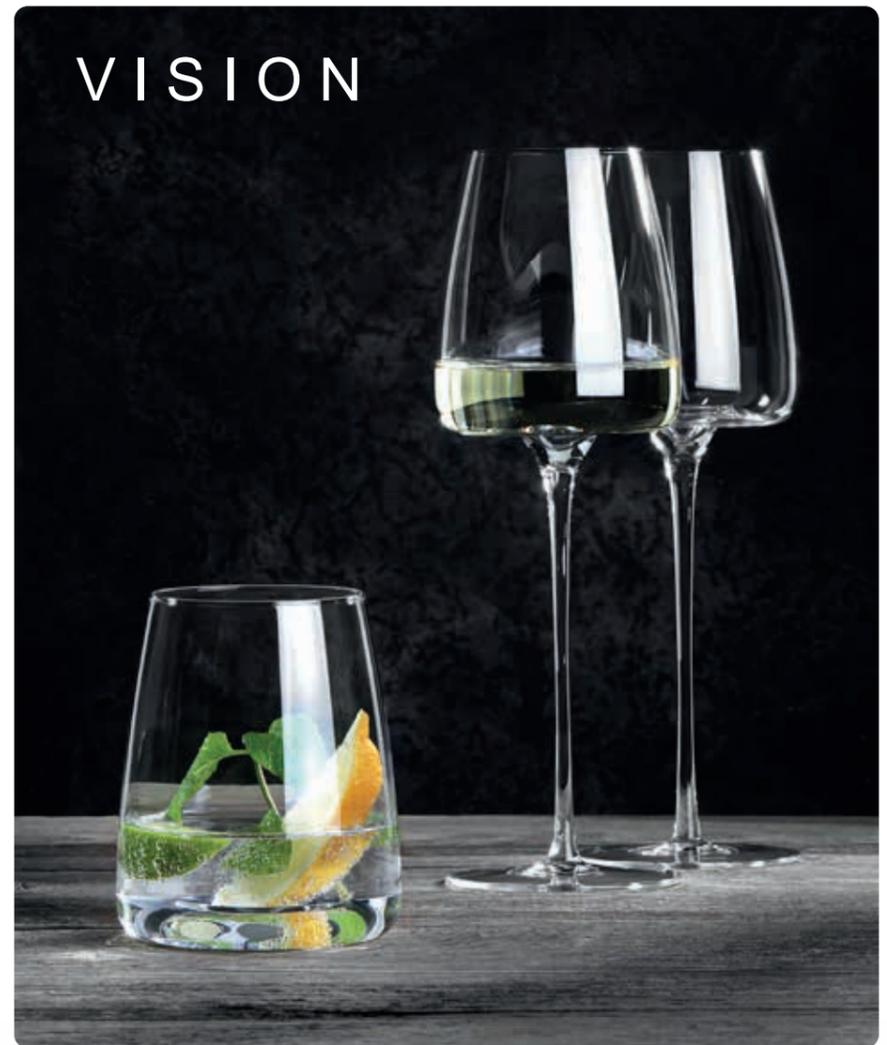

BALANCED

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.04	12/25	approx. 850	2 pcs
5480.04-1	12/25	approx. 850	1 pc

For white and red Burgundy, great Piedmontese wines, highly complex but sensitive white and red wines, extremely opulent rosé wines and old vintage champagne

A perfect glass for wine that is not for decanting due to its sensitive structure, but still requires a great deal of air. This crystal emanates pure consonance. Even with discordant wines, it succeeds in creating a concentrated and highly elegant impression. This glass turns wine into a complete aromatic experience, without overdoing it.

Please note enclosed care instructions! Further information is available on page 190.

Get to know VISION!

The glasses FRESH, STRAIGHT, INTENSE and BALANCED are also available in a single package.

The wineglass lid "Tesoro" is available on page 188.

The Zieher Food – VISION

The VISION series is predestined for wine and has been created to perfectly represent its different facets. In addition to this, the glasses offer an extraordinary platform for small delicacies or complimentary dishes from the chef. The harmonic wavy shape of the bottom creates an eye-catching ring when filled with spume or liquids. The depression in its centre provides space for amuse bouches or decorative highlights.

RICH

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.05	7/23	approx. 280	2 pcs

For fortified, sweet and dessert wines and any type of distilled beverages

A glass for the majority of heavyweight or high-proof drinks. The small presentation surface ensures that the wine or brandy does not become overly concentrated, so that the heavyweight aromatic elements are released in a nuanced way. Due to the glass having a narrow opening, the nose cannot go in very far, which prevents the perceiving mucous membranes from receiving a barrage of alcohol.

NOSTALGIC

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.06	10.5/16.5	approx. 250	2 pcs

For cocktails or as a food glass

The wide chalice is perfect for elegant presentations of creative cocktails, spectacular hors d'oeuvres or sophisticated sweets. Ideal in combination with SIDE for plain water, for easy service distinguishing both types of water.

SIDE

crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.07	9/10.5	approx. 480	2 pcs

For carbonated mineral water and soft drinks

Complementing the wine glass series, this glass is the tasteful companion for a stylish presentation of carbonated mineral water and soft drinks. The carbon dioxide is harmonised and the acids and mineral elements of fine sources are delivered to the tongue and the palate in a refreshing way, without being intrusive.

The product:

The "Tesoro" wine glass lid preserves the volatile aromas and fits on every VISION wine glass. At the same time, it protects the wine from flying insects and other foreign bodies.

The lids are made of high-quality borosilicate glass, which originates from the laboratory sector and is known for excellent chemical resistance and high light transmission in combination with a flawless surface quality.

The break-proof glass can easily be cleaned in the dishwasher and is odourless - the basic requirement for preserving the aromas of the wine.

Putting the rule to the test:

Take two glasses of the same kind. Now fill both of them equally. "Seal" one of the glasses with "Tesoro" and leave the other one open. Wait for just five minutes and then smell both glasses.

Both wines will be identical in taste! This reflects the development the opened wine is nevertheless going through. Note the variety of aromas, which you can absorb and analyse in the glass previously closed with the lid. You will be astonished and will probably never want to enjoy a wine without "Tesoro" again.

An aid to wine enjoyment!

"It's not just a wine glass lid, it's about capturing transience.

Hardly anything is as volatile as the wine aromas that escape from an open bottle or a filled wine glass. It happens automatically and naturally. It is irreversible and, in retrospect, often leaves a feeling of regret for not being able to capture the moment.

Sometimes it's in fact the small and inconspicuous things that leave a particularly big and lasting impression - like the "Tesoro" wine glass lid. It creates wine experiences you have never before consciously and obviously perceived."

Silvio Nitzsche, WEIN|KULTUR|BAR, Dresden

wine glass lid "Tesoro"

borosilicate glass, transparent, handblown

item	Ø in cm	height in cm	PU
5478	9	2.3	2 pcs.
5478-06	9	2.3	6 pcs.

Covers fine wines, preserves volatile aromas and acts as a serving lid.

The function:

Inside a wine glass, a microcosm of different aroma molecules is created. The variety of primary, secondary and tertiary fragrances emanates from a wine glass in several stages and cannot be enjoyed in interplay.

The "Tesoro" lid preserves the volatile aromas within the glass. The wine does not develop more slowly, but the fragrance molecules, which normally vanish, can be perceived gradually or together - at your own discretion. Thus the little enjoyment helper enables a completely new wine experience.

Tapas culture:

Tapas (lit.: small lids) meanwhile have become a gastronomic concept. According to the actual literal origin, you can arrange accompanying snacks and sweets on the "Tesoro" and serve them to your guests with the wine glass.

Care instructions VISION:

To maintain the attractive appearance of the glasses for as long as possible, we recommend washing by hand. If you do use the dishwasher, we suggest the following:

- Select the shortest possible rinsing cycle at low temperatures, use a cleaning agent that is suitable for glasses, and ensure that the water hardness is between 4 and 6.
- Remove your glasses from the dishwasher as soon as the rinsing cycle is completed if possible.
- Polish your glasses with half-linen or microfibre towels for the best result. Cotton towels may leave small scratches and traces of lint.
- It is best to use 2 cloths for drying. This way you can polish the glass from the inside and outside at the same time. Please avoid to turn the base, as this may cause the stem to brake.

For further information please visit:
WWW.ZIEHER-VISION.COM

The premium polishing cloth made of microfibre is the ideal tool for scratch-free and lint-free polishing of wine glasses and decanters. The easy-care microfibre is washable at up to 90 degrees celsius and ensures streak-free results. Please follow the care instructions, do not use fabric softener.

For series VISION, we recommend the CAMBRO - Camrack® Warewashing System

If you are interested or if there are any questions, please don't hesitate to contact your Cambro representative.

Camrack® 4-in-1 Warewashing System

- Efficient washing
- Optimum sanitary storage
- Inventory control
- Safe, sanitary transportation

The Camrack® Warewashing System will protect your valuable stemware and tumblers not only during washing, but also during stacking, storage and transportation. This helps to avoid costs related to damaged glasses. Detailed information about the Camrack® Warewashing System is available at www.cambro.com.

Camrack® Warewashing System

Cambro® offers a 4-in-1 system where glassware is washed, stored, identified and transported in one single unit. This multipurpose unit involves the Camdolly®, Camrack® compartment racks and the Camrack® cover.

Decanters

"Doppio" - how about a little extra?

In the "Doppio" decanter, wine is given a double stage that attracts attention and provides surprising effects.

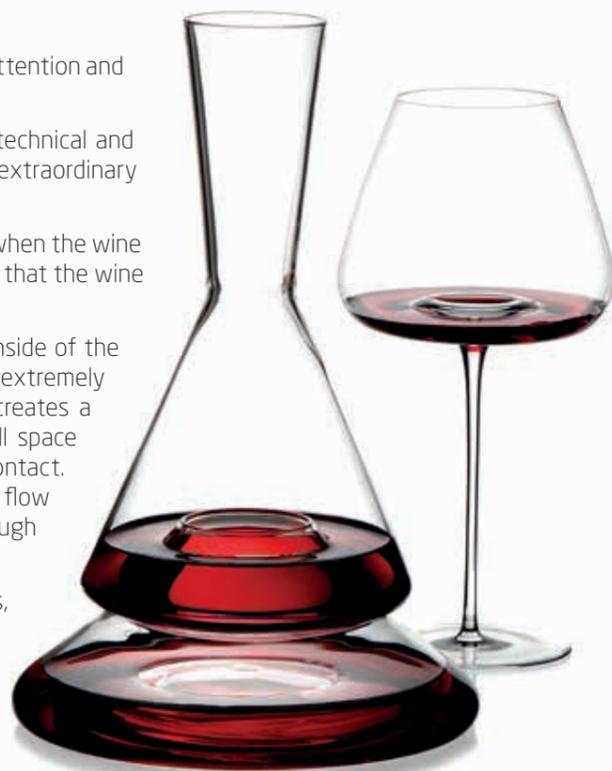

The geometric silhouette and the reduced design appears almost technical and directs the view to the inside, because the whole secret of this extraordinary design only discloses in filled condition.

Attractive visual effects appear already during the pouring process when the wine is divided onto both levels of the "Doppio" decanter. It almost seems that the wine is levitating.

In addition to the natural flow of the wine, which pours over the inside of the decanter onto the two levels, the division into two levels also has an extremely beneficial effect on the development of the wine. The splitting creates a significantly larger surface of the wine with a comparatively small space requirement on the table, which maximises the possible oxygen contact. The division also remains when pouring out, so that the cascaded flow creates a waterfall effect, which additionally increases aeration through swirling.

"Doppio" is elaborately handcrafted from high quality borosilicate glass, which is robust and easy to clean. The ideal charge of the decanter is 0.75 litre in order to generate maximum oxygen contact and the most beautiful optical effects.

Design: Itamar Harari

Uniqueness in practice

"Many decanters provide a fast but completely unbalanced development of wines because the wines develop only by a macro-oxidation on the surface. It's more balanced and harmonic to implement the necessary oxygen in a very soft and gentle way.

The filigree rays of the centric star animate the served wine to a very soft enhancement. During the swirling, the oxygen is mildly folded in and integrated into the wine. Thus the wine starts to develop on its own terms and not – as with other decanters – just on the surface.

The swirling of the wine is a fascinating view and helps in a three-dimensional development to harmonise the acid and to synchronise different levels of aroma.

By using borosilicate glass as raw material for this decanter, which sticks out by its extremely smooth surface, another highly pleasant effect is that the aromatic molecules aren't expelled from the wine but allowed to present themselves completely in the wine glass. The aerated wine becomes extremely balanced, carefully crafted and centered. An additional value which is simply priceless!"

Silvio Nitzsche, WEIN|KULTUR|BAR Dresden

"Star" - mini

decanter/carafe "Star" - mini with VISION "Straight"

Set consists of:

1 decanter/carafe "Star" - mini
borosilicate glass, Ø 11,5 cm, height 24 cm, content bowl approx. 0,7 l

2 wine glasses VISION "Straight"
crystalline glass, transparent, handblown, Ø 9 cm, height 27 cm, content 540 ml
1 set in black gift box

item	PU
4946.PB	1 set (3 parts)

The small "Star" - mini is particularly suitable for the decantation of open wines or small bottles. The ideal charge to provide a maximum of oxygen is 0.375 ltr. The reduced size allows to decant white wines and still to temper them in wine coolers. Also for dessert wines, the staging of innovative high-end cocktails, flavoured spirits, to the point of exotic juices – this unique product is the perfect solution.

Please note:

The ideal charge to provide a maximum of oxygen is 0.375 ltr ("Star" - mini).

silicone, black, Ø 13.4 cm
1 set in black gift box

item	PU
4948.PB	1 set (2 parts)

The big "Star" has a recessed grip in the bottom, which on the one hand improves the swirl during filling and slewing, on the other hand it ensures good handling and a secure hold when serving the wine. The collar, which is included in the gift box, is made of matt black silicone and also allows an inclined positioning.

Recessed grip at the bottom for better handling!

reddot winner 2020

The art of decanting

The decanter "Star" synergises the aesthetics of an unique copy with the functionality of a professional tool for vinophile pleasure.

Created by glassblower Detlef Greiner-Perth and presented by Silvio Nitzsche, "Star" is possibly the most fascinating wine carafe in a long time, due to its exceptional design.

The individual star raises each carafe to an exceptional piece and forms a fascinating basis for discussion with interested guests. This artistically designed centerpiece becomes a unique element in a complex process due to numerous processing steps. This is pure luxury in our uniform world because not a single "Star" is like another.

Idea: Detlef Greiner-Perth

The glass series VISION is available on pages 181 to 187.

All information about "Star" is available at www.zieher.com/en/highlights/star

"Eddy" - mini

The small "Eddy" - mini is perfectly suitable for the decanting of wines by the glass or little bottles. Thereby the ideal charge to maximise the content of oxygen is 0.375 litres. The compact design is perfectly suitable to decant white wines first and then to temper in a wine cooler. By the extravagant character of these design elements, even high end cocktails and other exotic creations can be staged appropriately.

item	PU
4892.PB	1 set (3 parts)

Please note:

The ideal charge to provide a maximum of oxidation is 0.375 ltr. ("Eddy" - mini).

The basic material for this development worker for wine is extremely robust, high-grade borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, is the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they also create visually interesting colour reflections and almost graphic effects.

Design: Silvio Nitzsche

The decanter dry rack "Stablo" is available on page 200.

"The decanter "Eddy" defines the world of extreme wine instruments in a completely new way. Their functionality has seldom been united with an aesthetic language of design in such a spellbinding way. The matchlessly fast-paced development of structure, which all wines undergo in that respirator, is really fascinating! Once rotating in this texture stimulator, due to the thousand-fold swirls at the conical indentations, the wine goes through a process, whose behavior is equivalent to an oxidation reaction of several hours, within a few seconds."

Silvio Nitzsche - WEIN | KULTUR | BAR - Dresden

www.zieher.com/en/highlights/eddy

The illuminable ring item 8153.01PB is available on page 198.

Spot on! - basic ring with LED-light

This version of the basic ring for the "Eddy" (item 4883) and "Star" (item 4947) decanters offers the chance to stage served wine through light.

The rechargeable Zieher LED-light (item 8150) fits exactly into the cavity at the bottom part of the ring and thus can put the served wine inside the decanter into the limelight. In the beginning, the illumination effect in the filled decanter can be very unobtrusive when serving strongly pigmented red wine.

But at a decreasing level, the play of light and colours becomes more and more intense in an exciting way. These accessories are also suitable to illuminate glass bowls and - platters. In combination with the ring, the LED-light and remote control still maintain their known options, such as adjustable brightness, 7 different colours and various colour-changing functions. Detailed information about the Zieher rechargeable LED-light can be found on page 49.

All components (ring, light, remote control and charger) are available either as single parts or as a set in a gift box.

"Pebble"

"Pebble" is made of high-grade, lead free crystal glass. The unfilled decanter inspires by the brilliance of the glass alone and the resulting light reflections.

These products are hand-blown with perfect craftsmanship. The sensitivity and long-year experience of the glass blowers become apparent in particular in the creation of the bottom, which is extensively dimensioned and separated into three convex segments

The decanter dry rack "Stablo" is available on page 200.

While filling the decanter the wine flows, due to the shaping of the neck, along the complete inside area, which maximises the surface of the wine and thus contributes to the aeration. The three swales at the bottom serve to further swirl the poured wine, which results in a gentle but nevertheless very effective aeration. This effect can be intensified by warily swinging the filled decanter. Furthermore, the three bulges at the bottom provide a wiggle-free and safe stand.

The diagonal cut of the neck and the accurate polishing of the raw edges minimise the formation of drops while pouring out.

The optionally available drying rack made of solid stainless steel, facilitates the drying of the decanters after rinsing. Non-skid rubber caps ensure a safe stand.

Care instructions decanter:

Looking at "Star" and "Eddy", almost everybody who already gained experience with decanters, will intuitively ask how to clean them. Many decanters have the nature, in particular when used for red wines, to absorb the colour pigments and to show light grey or brown surface layers after a certain usage. Most of these carafes have microscopically seen a rough surface, which leftovers of the wine might adhere to and cause an unattractive appearance of the decanters. With our decanters made of borosilicate glass, this effect might appear after a much longer period due to the extremely smooth and repellent surface of this high-quality laboratory glass. In case it actually happens, these traces can easily be removed by using a mixture of citric acid and water. After a 2 hours residence time, the problem should be solved. The optionally available drying rack (suitable for decanters "Pebble", "Eddy" and "Star") made of highly polished stainless steel, facilitates the drying of the decanters after rinsing. Non-skid caps, made of matt black silicone, ensure a safe stand and keep the decanter in the desired position.

THE BAR COLLECTION NEW

For drinks with character!

THE BAR COLLECTION by Zieher enriches the bar scene with new characters which are predestined for independent creations beyond the cocktail mainstream. Each jar playfully picks up on a different theme and thus exudes a good portion of humor in its own way.

Made of particularly break-proof and temperature-resistant borosilicate glass, all glasses not only offer an extravagant outer shell, but with a capacity of up to 500 ml, also provide plenty of space for extraordinary experiments and countless recipes.

Despite their differences, all glasses are easy to combine and create possibilities that go far beyond serving a drink. Besides the taste, a haptic and visual experience is generated as well, which fulfils the basis of modern cocktail staging.

THE KNOBBED

THE PILL

THE VIKINGS

EDDY - DASH!

The dashbottle „Eddy-Dash!“ and the drop pourer are available on page 208.

The glass tray item 5145 is available on page 267.

“The Knobbed” plays with its content, because the attached knobs imitate the bubbles of carbonic acid in an amusing way. Interesting contradictions to the actual content can be taken to extremes here.

“The Pill” allows for many associations: The risks and side effects of the drinks served in these glasses range from the feeling of well-being after consuming various healthy drinks to the intoxicating effects of high-proof cocktail creations.

CALL SOUL - Breaking Bar, Munich

cocktail glass THE PILL, page 206

The dash bottle "Eddy - Dash!" for dosing bitter or sour ingredients is, alongside the glasses, an important part of THE BAR COLLECTION. A fitting squirt dispenser comes with every bottle. This vessel is formally based on the well-known "Eddy" wine decanters from Zieher and, in addition to being used as a dash bottle, also enables further uses. Thus, for example, a "cocktail from the bottle" can be served in these vessels, the inwardly directed swirling bodies allow the ingredients to be mixed right before the drink is enjoyed.

The smallest "Eddy" can also be used in the restaurant. For this purpose, Zieher offers suitable cruets as well as matching bottle pourers with hygienic sealing caps, which allow the "Eddy - Dash!" to be used as an oil or vinegar bottle

"Cuspis"

The large cloche "Cuspis" and the suitable plateau plate are available on page 152.

Borosilicate glass in its most beautiful shape!

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with a fitting porcelain plateau plate/mini bowl are available in three sizes and the inspiration for their shaping was derived from the nut of the oak tree.

The star-shaped handle is located at the top of the cloches and allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain bowls is reminiscent of acorn caps. The bowls can be used on both sides. When used as a plateau plate, the dishes move closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more.

"Flex" - Perfectly designed and beautiful!

Tubes made of borosilicate glass – shaped into unique pieces by way of heat exposure. These perfectly designed elements of the "Flex" series can only be manufactured in such a sophisticated quality by extremely precise control of timing at exact temperatures.

Elegant presentation plates for amuse-bouches, fingerfood and other artfully arranged delights of upscale cuisine originate from this complex procedure. The "Flex" series is also suitable for intermediate courses or smaller desserts as well as presentations of bread and oil or dips.

The artfully curved inside of the tubes offers creative space for cutlery or napkins, decorative herbs, edible blossoms and more!

A rest for knives or chopsticks in the same language of design blends harmonically into this series. Chopsticks made of borosilicate glass are the perfect completion for this line. The satined surface of the sticks provides for pleasant haptics and creates an appealing contrast to the clear glass of the rest.

Design: Michael Schwarzmüller
Idea and concept: Zieher

No sliding, no clattering – with non-slip pads by Zieher!

The china series "DressCoat" is available on pages 156 and 157

The coasters made of food safe silicone are shapely accessories with a highly practical benefit. Clattering and wildly sliding miniatures on plates and trays are a thing of the past.

The skid-proof discs with their delicately structured, matt surface facilitate the service's work and ensure undisturbed enjoyment for the guest.

The coasters are available in two colours; the white ones can be integrated discreetly, whereas the black ones can be used deliberately as contrasting, decorative elements

These spherical bowls made of borosilicate glass accentuate in particular artfully presented dishes by their minimalistic and elegant design. The flattened bottom of the bowls ensures a safe and even stand. Optionally available silicone rings for the small version guarantee skid-resistance and also allow a positioning at an angle.

All bowls are made of borosilicate glass, whose strength, temperature resistance, high transparency as well as absence of bubbles guarantee a high quality product experience.

The baskets of the "Reef" series are available on page 219.

Double-walled thermo glasses

Handblown, double-walled glasses made of borosilicate glass combine spectacular optics and extraordinary technical features. The vacuum between the two glasses prevents the formation of condensate on the outside of the glass when the ambient temperature is warm and the drinks are cold. The isolation effect keeps cold and warm liquids cold or warm for a longer time. Borosilicate glass by Zieher stands out due to its hardness and high temperature resistance.

"Reef" – showpieces of table culture!

More items of the "Reef" series are available as of page 70.

Large numbers of single parts are casted from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork.

The products of the "Reef" series are genuine gems of dining culture!

The small presentation baskets can be equipped with various miniatures made of clear or coloured glass and give your food a stunning stage.

The creamer is handmade, deviations from the declared measurements may occur

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight, this porcelain piece only partly reveals its interior.

"Cave" consists of intricately worked hard porcelain and captures by its soft shape and the velvety haptics of the unglazed outside. Touching the cave-shaped bowl, it feels almost like a

palm stone made of white gold, having a soft appearance with delicious contents.

"Cave" is predestined for an use at cocktail and hors d'oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and perfectly fits in the palm of the hand.

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With Zieher's two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black resp. white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used. The pads can also be used on the buffet. For further information, please have a look at pages 44 and 45.

Skewers

and more!

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical slaty cleavages, therefore every piece is unique. Small deviations in structure, thickness and weight of the plates cannot be avoided because of the nature of the product. There may be single inclusions of other minerals and fossils. These extraordinary features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

Marble is a natural product, which means that the dark brown marbling can vary strongly. This is exactly what creates the vivid and unique look of this natural stone. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles. Please clean only with a wet cloth and gentle cleaners. Not dishwasher-safe. Cleaning in a dishwasher may dull the surface.

"Bento Box"

All information about the "Bento Box" is available on page 129.

insert/box

melamine, black, surface matt, stackable, food-safe, dishwasher-safe, not suitable for microwave and combi steam oven, up to 4 pieces fit into item 4578

item	l x w x h in cm	PU
4580	29.5x9x3.3	3 pcs

The lid of the Zieher „Bento Box“ can also be used as a shapely tray.

Bento Box - flexible mobility

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for service staff. The "Bento Box" from Zieher has been designed especially for these requirements - all components are stackable. This way, they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Matt black melamine, modern design and subtle contrasts, created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The versatility of the individual components also becomes evident in the cover, which has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

Cruet stands, trays, etageres and more!

Please note:

Items made of melamine are not to be used for cooking in microwave and combi steam oven!

The champagne flute "Vaganza" is available on page 202.

“Solid”

Enjoyment in a pentagon

These classy service platters take effect by their exceptional shape and the stylish combination of oiled walnut wood and slate-grey ceramics.

Available in two different sizes for just one or more persons, single courses right up to mixed arrangements - so-called “sharing plates” - can be staged appealingly.

For bigger buffet setups, several plates can be arranged space-saving and thus provide an extraordinary structuring of the buffet spaces. The pentagonal design allows numerous arrangements - as a result, beautiful presentation areas for regional delicacies, desserts, antipasti and much more can be created.

The projecting handle permits an easy removal of the insert and thus allows an uncomplicated cleaning of the thin but very robust ceramic.

4775.44PB	40x16x2.3	44.5

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series “Connect!” convince as a snack board, serving or cutting board, or as a presentation platter created by the combination of several elements.

“Connect!” is an extremely versatile tool for everyday use. The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling. The solid walnut wood is sealed with high-quality oils, which makes it easy to freshen up the surface from traces of everyday wear and tear.

Please note the care instructions: not dishwasher-safe, do not immerse in water!

“Solid”

A suitable stand for the roomservice-tray item 4735 is available on page 276.

More trays made of walnut are available on the following pages.

Breakfast in bed – inroom dining!

The room service tray (page 236) as well as the bed tray stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, a comfortable sitting beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room. The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 266. The trays are equipped with integrated grip holes and stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the "Solid" range.

Rubber feet at the bottom which are slightly offset towards the middle enable the transport in a tray trolley in 1/1 EN-format 60 cm x 40 cm.

"Solid" – Wood in its most beautiful shape

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in daily use. Please note the enclosed care instructions, not dishwasher-safe, do not immerse in water!

Delicacies in delicate setting!

Due to the comprehensive range of accessories, the “Solid” presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

“Solid”

The most exquisite chocolates/truffles in an exclusive ambiance

Finest creations of the pâtisserie have to be presented in a worthy frame!

Marco D'Andrea:

“In search of the perfect way to present my chocolates/truffles and after receiving manifold inspiration from colleagues, I have asked a carpenter of my acquaintances to manufacture some first prototypes. It was important to me that the box could be used to present jewellery and diamonds as well.

The round deepenings in the box are specifically matched, that even if the box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look. The brown tinted glass reveals the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it can also be used for the presentation of more chocolates or petit fours.”

Idea and design for these presentation boxes “Solid” for truffles and filled chocolates are from Marco D'Andrea, “Junger Wilder 2012” and proclaimed “Pâtissier of the year 2014” during the “Leaders of the Year Award” convention (powered by ROLLING PIN). His first cookbook “Modern TeaTime” was published by Südwest Verlag in autumn 2021.

Further awards:
“Pâtissier of the year 2019” - Rolling Pin
“Pâtissier of the year 2020” - Gault Millau
“Pâtisserie team of the year 2020” - Schlemmer Atlas

The bread baskets made of solid walnut wood surprise with their exceptional design and their highly sophisticated handcraft. Designing these bowls, the Milanese designer Itamar Harari did not only think of serving bread, but also of the typical Italian Grissini. Recesses at both ends are especially suitable for those. A selection of fruit in the hotel room also receives much attention if stylishly presented in these extraordinary bowls made of beautiful wood.

NEW

The "Falcon" etagere - as most stainless steel items - can be refined by using the PVD process. Prices, minimum order quantities and delivery times upon request.

More buffet platters made of laminated plastic or glass are available as of page 52.

"Falcon" - really detached!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet and on the table. A single one can bear up to three plates on it's wings or when used as a duo, also fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters. As a high-tea stand, the etagere carries plain white coup

plates or matt-black plates with a slate-like structure, which fit exactly into the slots of the wings. The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service. This majestic creature is sitting on a stylised branch, which also provides a firm stand.

NEW "Table-Tree" Pin

The trees can also be used on the buffet and are a nice addition to the larger exemplars of the "Flower-Tree" family. These are available in two versions and offer with up to 72 cm high, 13 or 25 levels for the presentation of culinary delights.

The cloche (item 4852) and the suitable saucer made of walnut (item 4734.03) are available on page 179.

"Table-Tree" Flower **NEW**

"Table-Tree" - Tempting variety on the buffet

For the presentation of filigree delicacies in the smallest of spaces, the "Table-Trees" from Zieher offer numerous possibilities for a stylish staging.

A selection of fruit, chocolates or patisserie can be presented on the six organically shaped petals of the "Table-Tree" Flower.

For surprising moments, the "Table-Tree" Pin offers the possibility of presenting finger food or small snacks on six skewers at different heights. Melon with ham, dates wrapped in bacon or tastefully filled parmesan baskets and edible flowers find an attractive place on the elegant branches. Each delicacy is held securely by an artfully shaped spiral and prevented from slipping.

The 30 cm high "Table-Trees" are made entirely of stainless steel by hand and polished to a high gloss. The solid base forms the basis of these filigree products and ensures a secure stand.

"Flex-Tree" & "Flower-Tree"

A tree to dream of!

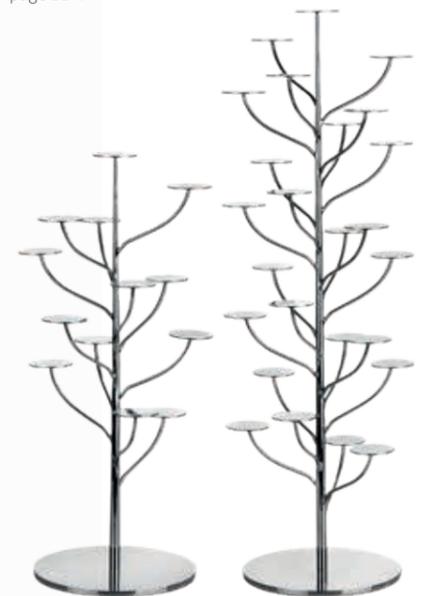

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies.

The "Flex-Tree" enthruses by its versatility! It can be equipped with various miniatures. You can find a small selection and all information on these etageres on pages 96 and 97.

The leaf shape of the "Flower-Tree" is based on the already existing plateau plates and "Flower-Tower" etageres (page 99 and 100). Especially on the buffet, this opens up the option to arrange installations diversified but yet harmonious and variable.

Anti-slip-pads:
page 214.

"Flower Tower"

Design: Itamar Harari

Floral shapes in a steely gloss

Seemingly organic shapes in an interplay with the gloss and reflections of hammered and polished stainless steel make up the special charm of this product line. Two etageres as well as plateau plates in different heights (page 100) allow a visually harmonious yet flexible and diversified presentation of appetizers or desserts on the buffet. But also finger food, petit-fours, elaborately decorated cup cakes or a selection of pralines in the guest room find a convenient stage on these products. The ice cream/sorbet cups and petit-fours stands in various sizes make a nice complement and individually stage appetizers or a dessert.

The formal base for all products is a slightly arched and kidney-shaped miniature plate. On three levels, the buffet etagere combines seven small plates each to a presentation platform of floral appearance and offers space to present up to 21 delicacies in a compact and stylish way. The single levels are supported by a filigree trestle made of massive stainless steel, which in shape and construction, deliberately readopts the design of other Zieher etageres. So nothing gets in the way of a harmonic combination of the different product lines.

The table etagere consists of one level only and is therefore perfectly suitable for the restaurant service to present intermediate courses, antipasti or dessert variations. This product is the ideal choice, even as a stylish storage dish for different types of fruit or accessories of daily use.

Please note:

We recommend the use of large plates on the lower level only

Etagere "DressCoat"

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. Black silicone rings keep inserted porcelain in position and prevent annoying clattering.

A very special aesthetic setup can be arranged by using a combination of several etageres along with the biggest plates of the "DressCoat" series (page 156). In connection with the almost invisible tier stand, the plateau plates appear amazingly airy and playful by their floating look-and-feel. A buffet presentation with an elegant vibrancy caused by the drapery of the "DressCoat" plates - that's where it comes into its own! Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with "DressCoat" or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way. All information about this etagere are available on page 94.

More items of the "DressCoat" series are available on page 156.

The triangular bowls are available on page 91.

Elegantly served and presented in style - classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three levels and in two sizes. The classic mini format etageres effectively present petit fours, desserts, chocolates or other delicacies. The larger version is ideal for scones and jam during Five O'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table.

"Fakir"

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

Please note:  The brass items are only suitable for cold/dry food. Do not clean in the dishwasher.

Candle holders Wind lights

"Reef"

For tealights or candles up to a height of 10 cm and a diameter of 7 cm.

The wind light fascinates by reflections of the candlelight in the silvery metal and the dancing shadows of the slender structures. A removable cylinder made of heat resistant glass protects the flame from wind and thus allows the usage in the garden and on the terrace.

Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularisation of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

"Somnia"

At first glance the golden branches, strapped to a bundle, are reminiscent of a besom of a different kind. With candlelight, this extraordinary lighting object creates fascinating effects and provides for a cosy and comfortable ambience.

The filigree rods, visually appealing like thin branches, are made of brass and manufactured piece by piece in traditional sand casting. Afterwards they are soldered onto a solid baseplate with an elevated rim. This baseplate avoids the leakage of wax and protects the table surface from the heat.

Additionally it forms the frame for a removable cylinder, made of heat resistant glass, which by way of its satined surface, intensifies the mood of the light and protects the flame from wind at the same time.

Please note:

For tealights or candles up to a height of 10 cm and a diameter of 7 cm.

The LED-candles, in combination with different fitting Zieher tealight holders, turn every table into a homelike place for romantic hours.

The power supplies, which are available separately, optionally with EU-, UK- or US-plug, guarantee a worldwide operation of the LED set. Due to the induction charging mechanism, the LED-candles do not have any electrical contacts. This feature, as well as their water resistance (not waterproof), make them ideal for outdoor use.

Each tealight candle is equipped with a yellow shining LED and by skilfully switching between bright and dark, it achieves a deceptively real candle flickering effect. The rechargeable battery, which is integrated in the LED-candle, assures a lighting time of 20 hours with a charging time of about

8-9 hours and a lifetime of more than 500 charging cycles (this equates about 10.000 operating hours).

The induction charging base, which is included in the set (item 8130), allows the charging of up to 12 LED-candles at the same time. Another plus is the integrated plug connection which allows to connect up to 4 charging bases to one single power supply. This enables the charging of up to 48 LED-candles with one electrical socket at the same time.

One set (item 8130) includes 12 LED-candles and 1 induction charging base. The respective power supply (item 8132.EU/UK/US) needs to be ordered separately.

Bring the romantic atmosphere of candles to your own table - via modern LED technology!

Room service
Guest rooms

"Solid"

The tray stand of the series "Solid" convinces in every aspect!

The shapely stand always provides the appropriate possibility to set up the "Solid" room service tray (item 4735) in the hotel room, but also in the restaurant. Combined with Zieher buffet platters in the format 2/1 GN, the stand easily and flexibly creates new spaces at a comfortable height. It is predestined for the use at the buffet as well as for the use during coffee breaks in the congress and convention business. The massive frame made of walnut wood harmonises perfectly with other buffet items of the series (pages 112 to 125) and can be combined with them very well. Anti-slip rubber feet on the top prevent the shifting of platters and trays, felt gliders at the base protect the parquet flooring and ensure safe standing.

More items of the series "Solid" for the buffet are available on pages 112 to 125

Breakfast in bed – Inroom dining!

The room service tray as well as the "Solid" bed tray stand out due to the precious walnut, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, a comfortable seating beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

The recessed longside of the room service tray simplifies comfortable dining directly off the tray.

Delicacies in delicate setting!

Due to the comprehensive range of accessories, the "Solid" presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight.

Apart from an insert with round cavities for nine truffles/chocolates and a flat plate which can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. No matter if it is an assortment of coffee specialities or various delicacies of the pâtisserie, the presentation box by Zieher provides the perfect setting for many purposes.

item	version	l x w in cm
1668.03	black glass	50x34
1670.03	white glass	50x34

Please note:

The trays 4707 and 4769 are not suitable for the tray stand item 4748 (page 276).

The plates and cloches of the "Cuspis" series are available on pages 152 and 153.

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room.

The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin.

Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 266.

The trays are equipped with integrated grip holes and are stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the "Solid" range.

4707 + 1668.03

Extraordinary storage places for extravagant guestrooms!

"Donna"

The china pillow "Donna" is available on page 155.

The platter "Collina" is available on page 159.

Bedded on glass

This variant of the "Donna" pillow is made of frosted glass and despite its hard and massive raw material, it surprises by its pleasantly soft and velvety feel.

The organic shape of this extraordinary piece offers an ideal presentation area for extravagantly staged intermediate courses or serves as a fancy place to keep all sorts of small objects of everyday life. Even when used as a soap dish, the pillow cuts a good figure. A version made of porcelain is available on page 155.

Design: Wilma Greim

Bedded on wood

Made of solid wood, milled with dedication and refined with high quality oils!

This sculpture of solid walnut, one of the finest varieties of wood, has its own appearance. The sealing with oils emphasises the striking grain of the wood and gives the surface a silk-matt gloss as well as amazing haptics.

One just has to touch the softly curved forms of this hand charmer. Whether used as a fruit bowl, as a place to keep accessories or as sculptural decoration - "Donna" seduces in every material!

"Podia"

The fruit bowl "Sixth Sense" item 2171.02 is available on page 89.

Please note: by reason of manufacturing, deviations from the declared measurements of the bridges may occur!

In-Room Dining

The buffet bridges and trays of the "Podia" series offer several advantages! They are light but robust, flexibly usable and can be stored in a space-saving way. With its use as a display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - "Podia" offers multiple possibilities for use and flexible handling. The tray in 1/2 GN format is especially suitable for different miniatures made of porcelain and glass. Slide-proof silicone coasters in different styles (page 214) guarantee a good grip during service. All parts of this series consist of form-glued authentic wood veneer. The bridges are available in two types of wood. The light version harmonises very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.

Etagere "DressCoat"

anti-slip rings

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with "DressCoat" (item 4388, page 94) or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way. All information about this etagere are available on page 94.

The plateau plate item 4388 and more items of the "DressCoat" series are available on page 156.

ZIEHER
somewhat
different!

The buffet systems by Zieher were developed to put the most exquisite products into the limelight in a very effective and diversified way.

The section "displays" shows that they are not limited to the use with food: high-class jewellery and watches, as well as other kinds of luxury goods find a representative stage with the Zieher display systems.

The discreet and classy design never pushes for attention, but offers a unique and distinctive means of presentation, that puts the product at the centre of attention.

Glass and china refinement:

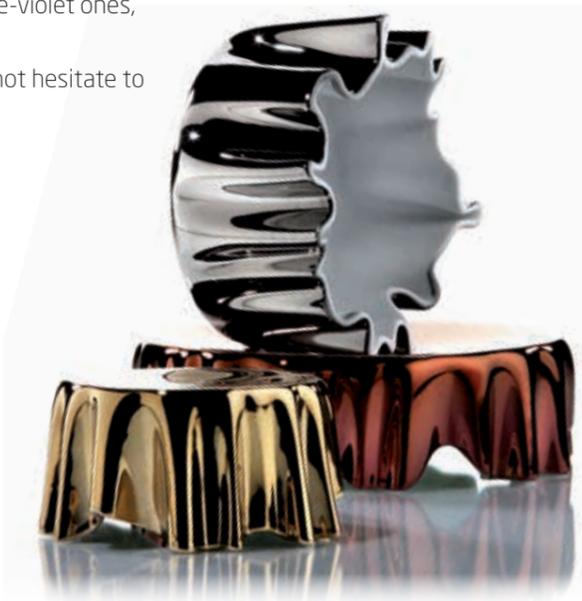

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result, the coating is dishwasher-safe. Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys, we obtain a connection to the varnish, which is strong enough for the products to become dishwasher-safe. Test series by the "Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG" have proven the dishwasher resistance of the decor.

Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility. The bronze colour is a special case since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones, which blend into each other and create unique effects.

Specific patterns/orders are usually executed quickly. Please do not hesitate to send us your special request!

Further information on refining china, glass and stainless steel can be found on pages 86 and 146.

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents to avoid damage.

Since the coatings are made of precious metals, the use in microwaves is not recommended under any circumstances

Stainless steel refinement through PVD-technology

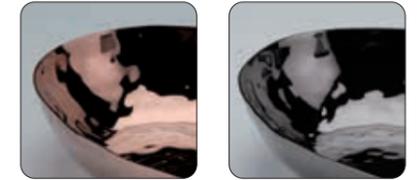

Highly polished and matt stainless steel can be refined by using PVD-technology to obtain golden, copper and black colouring.

PVD stands for **Physical Vapour Deposition** and describes a method to coat products with different materials by way of sputtering in a vacuum. Contrary to the galvanic refinement, for example with copper, items refined by using PVD-technology will neither oxidise nor tarnish at the surface. Thus any copper refinement can be done without applying specific anti-tarnish protection. The technical feasibility of PVD-refinement depends on size and shape of the items and has to be checked individually. Price, minimum order quantity and delivery time upon request!

stainless steel, polished

golden

copper

black

Advantages of the PVD-coating

- Food-safe
- Dishwasher-safe
- Better strength and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

We will be delighted to advise you!

Powder-coating:

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to the PVD refining, this coating is not dishwasher-safe.

Individuality in glass ...

Bei Dekoren auf doppelwandigen Gläsern besteht die Möglichkeit, den Aufdruck auf der Außenseite des inneren Glases aufzubringen. Somit ist der Druck vollständig gegen Abrieb und Verschleiß geschützt.

... melamine ...

... china ...

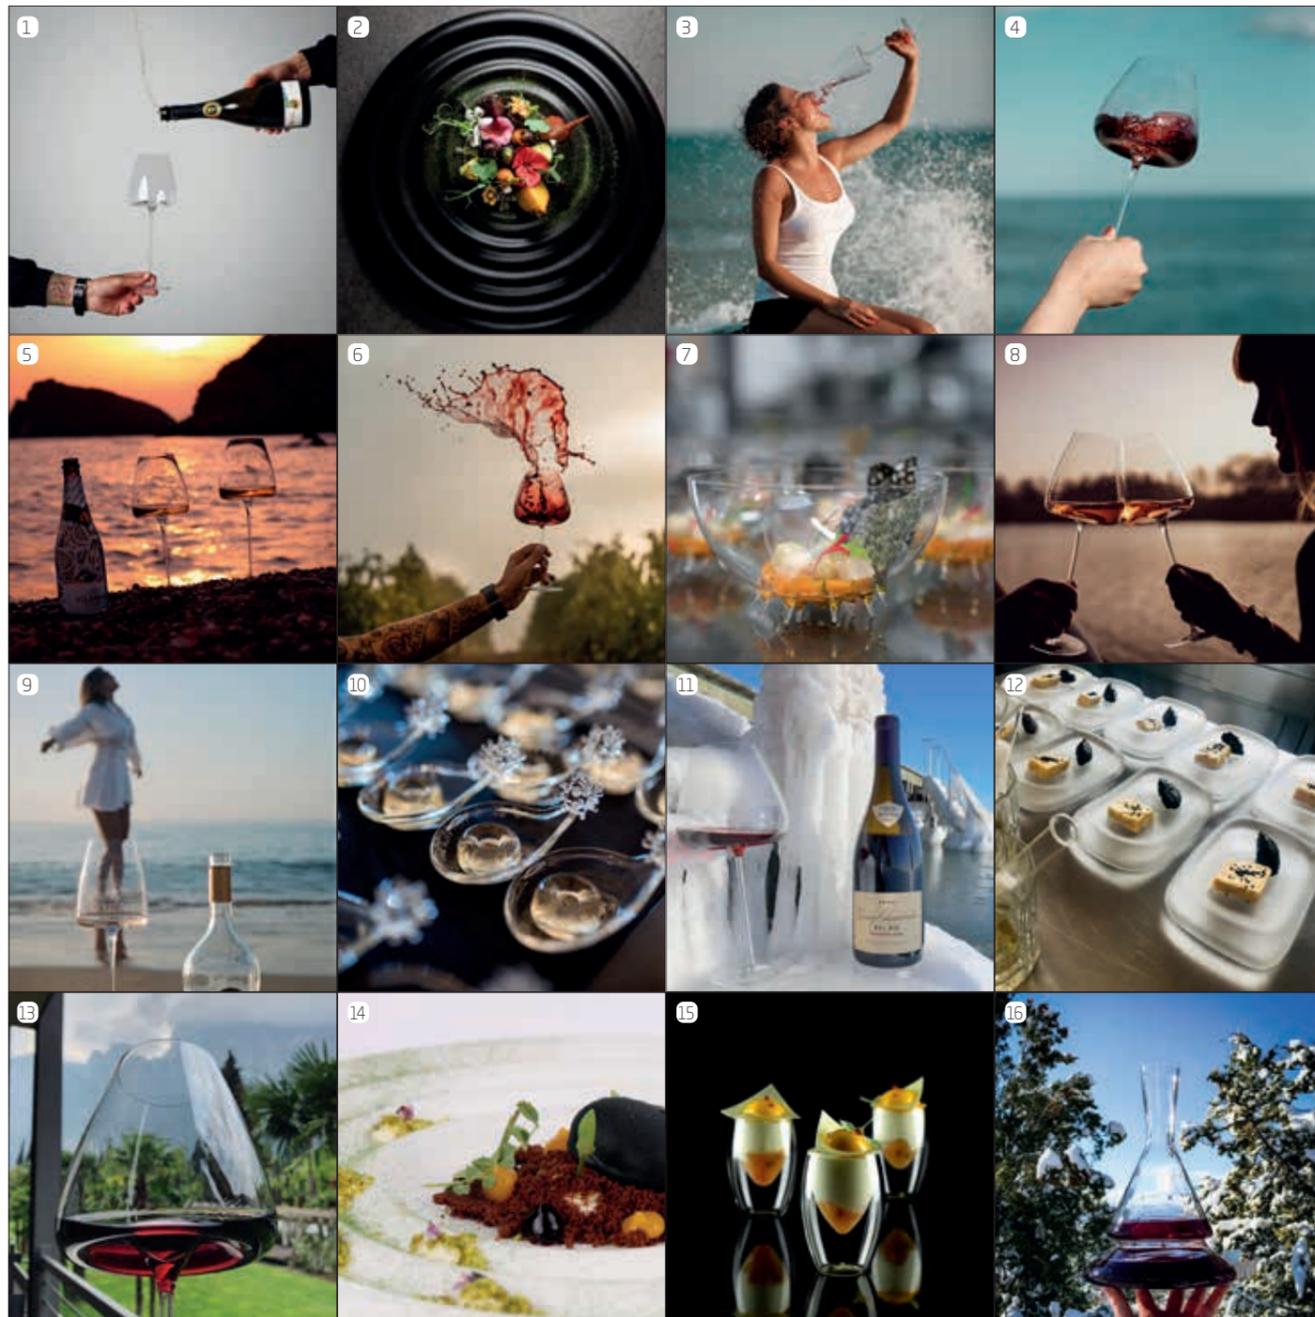

... and stainless steel!

Our partners, fans and friends, among them many top chefs and sommeliers from all over the world, are using Zieher products to stage drinks and dishes and to present them on social media.

Below is a great collection of very special Zieher moments. Thanks so much for your creativity!

35 years of ZIEHER – a story of success from 1986 to 2021

Starting years as trading company

1986 – 1996

In 1986 Manfred Zieher and his wife Christa founded the company. Traditional gastronomic items were offered under the name MAC and soon also presented in an own catalogue and on shows. In 1994 the company was finally named Zieher.

Wine and more

Since 2015

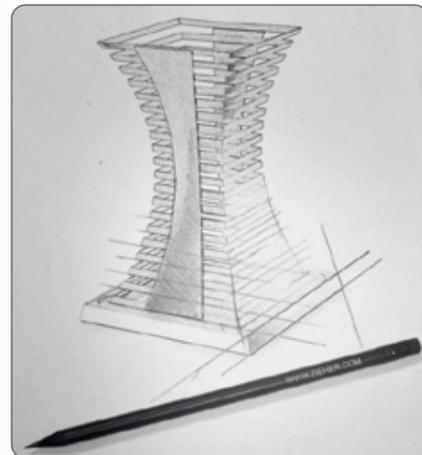

The cornerstone for a collection for ambitious wine lovers was laid in 2015 with the "Vision" series. These unique wine glasses have been developed together with sommelier Silvio Nitzsche from Wein | Kultur | Bar Dresden. In 2017 the range has been extended by the extraordinary decanters "Eddy" and "Star" and has been made accessible through specialised retailers also for end users.

Establishment as gastronomic partner

1997 – 2005

In the second decade, Zieher became established as partner of gastronomy specialised shops. Since 1996 the company is located in Himmelkron, the prominent brand logo was registered in 2004 as a word and figurative mark.

Focusing and generational change

Since 2020

Zieher is focussing on their skills and positioning themselves more and more as an extravagant design manufacturer for luxury food presentation and wine glasses. The professional range has been tightened and the range for end users has been reduced to the FOR WINE LOVERS range. In 2021 the generational change has been carried out and the company has been handed over to the children Dominik Zieher, Jennifer Hübsch and Oliver Zieher (l.r.).

Zieher today

In 2022 Zieher is present in 5 * Hotels and top restaurants in more than 90 countries and appreciates the long lasting, often amicable relationship with clients, partners and suppliers. As partners from the very beginning, a very special thanks

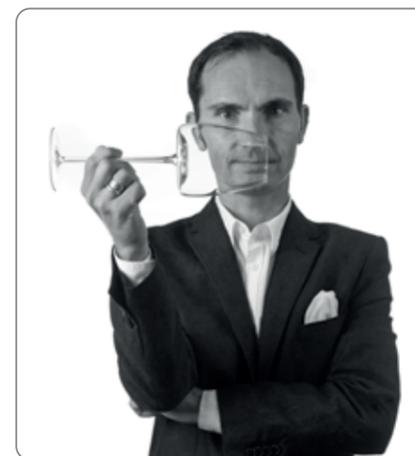

to Thomas Dötzer from Dötzer Restauration Bayreuth for his extraordinary culinary expertise and to Photographer Gerd Preiss for the artful composition and the exclusive styling of the Zieher image library.

Extravagance designed by Zieher

Since 2006

The first Zieher designed products were released in 2006. Individual creations in the luxury segment emerged from the close cooperation with renowned chefs and the inspiration by their artistry. Besides the cooperation with well-known Designers such as Itamar Harari for instance, many products bear the signature of Oliver Zieher. In 2009, "Skyline" - a benchmark for extremely flexible buffet systems - has been developed.
