

Vectair V-Fresh™

Universal Air Freshener

FRESHEN THE AIR

Vectair V-Fresh™ is a small and versatile solid state air freshener that can attach onto any hard surface. With added malodor eliminating micro porous materials, it freshens the air for up to 30 days while neutralizing bad odors.

Environmentally Friendly

Vectair V-Fresh™ is a simple, sustainable air care solution. It is VOC exempt, non-hazardous and free from propellants, solvents and HFCs.

Flexible

Subtle yet effective and simple to install and replace, **Vectair V-Fresh™** can be installed onto any hard surface using the integrated suction cup, out of sight from visitors.

Refined

If positioned in sight, **Vectair V-Fresh™** can be a complementary feature to any interior environment because of its stylish design.

Multi-Purpose

Vectair V-Fresh™ can be used in or around toilet bowls, urinals, tiled walls, glass windows or attached onto any hard, smooth surface – even under water pressure. An integrated hanging slot means it can also be hung from a variety of objects. A large service glove is supplied with each unit to ensure hygienic and safe installation and disposal.

Harmonize Your Environment

As experts in air care solutions, Vectair Systems understands the importance of a fresh smelling ambience. Sometimes fragrances can get 'lost' and clash when more than one fragrance system is used. **Vectair V-Fresh™** however has been designed to offer the same great fragrance options as provided in the Vectair V-Screen® Urinal Screen and the award-winning Vectair V-Air® SOLID Multi-Phasing Air Freshener.

Co-ordinated Fragrances

This allows you to co-ordinate your fragrances to match your specific location requirements. Whether you need urinal screens placed in a men's urinal, an air freshener in a general washroom area or a discreet fragrance solution in separate toilet cubicles, **Vectair V-Fresh™** can be placed onto any hard surface to complement the existing air freshener solutions provided.

So, you get the benefit of three fragrance systems, without the risk of each system's fragrance interfering with one another. In other words, you are harmonizing your environment and creating one, collective wave of fine fragrance throughout each product's life cycle. Clever, right?

FIVE POWERFUL FRAGRANCES

Vectair V-Fresh™ provides a powerful fragrance that fills and freshens the air around it.

Choose from:

- **Apple Orchard**
A rich and fruity fragrance that gives an air of Indian summer.
- **Citrus Mango**
A fruity and refreshing tropical mango and citrus orange fragrance.
- **Cool Mint**
A blend of wild mint and a hint of jasmine fuse to create a cool, energizing fragrance.
- **Cucumber Melon**
A sweet, clean and brisk crush of cucumber for a smooth and supple fragrance.
- **Ocean Spray**
A cool, fresh fragrance like the ocean breeze.
